and contain such details as the Govt may direct The forms have been prescribed in Appx B M Accts Manual Part II – Accts Page 141 This is the time in which the administration report of the Accountancy Dept is also being prepared & sent together to the President, Mysore & M & C has also prepared it in that form was in vogue for several years

vide pencil note – for 39-40 put up

In subsection (2) thereof, it is stated that the President shall prepare the report & place it before the M & C for consideration & forward it together with the remarks of the M & C thereon It is seen in this case that the result is to the effect that as the draft report is incomplete and not properly arranged in a logical & intelligible manner, the C desires the President to redraft it on the lines indicated & put it up before the Council again for consideration

It may be noted in this connection that a draft copy of the report of the M administration Mysore circle was received in this office & the abstract prepared sent to the State Administration Report Section for incorporation therein

– adopted – pencil notes,

Certain marks on the M Govt 1941-42 are already over and the

# MYSORE CITY MUNICIPALITY

Report on the Administration of the Mysore City Municipal council for the year 1940-1941

## Part I

## Importants events during the year

1 The year was marked by a most sorrowful event, viz, the passing away of His Highness Sri Krishnarjendra Wadiyar Bahadur G C S I , O B E, a great and a saintly Ruler, beloved of all his people and the maker of modern Mysore At its meeting held on 5th August 1940, the Municipal Council sent their condolence to the Huzur Secretary to His Highness the Maharaja of Mysore

The Pattabhishekham of our present beloved Maharaja, His Highness Sri Jayachamarajendra Wadiyar, was celebrated on 7-9-1940 and the two succeeding days with great eclat

In the meeting of the Municipal Council held on the 31st August 1940 the following Resolution was unanimously passed -

> " The Mysore City Municipal Council begs most respectfully to offer its heartiest felicatations to His Highness Sri Jayachamaraja Wadiyar Bahadur on the auspicious occasion of His Highness's assumption of the Exalted Office of Ruler of Mysore and prays the Almighty to bless His Highness with long life, health and prosperity and with a happy and glorious reign '

During the month of June 1941, the marriages in the Royal Household of Princess Sri Vijayalakshammani Avaru with the Thakore Saheba of Kotada Sangani and of Princess Sri Jayachamundi Ammanni Avaru with His Highness the Maharaja of Bharatpur, were celebrated The Municipal Council offered its respectful felicitations and submitted flowers to the bridal couple on the procession day at a pendal specially erected for the purpose The Municipal council also contributed a sum of Rs 1000/- for clothing the scavengers

scavengers in honour of the occasion They have also sanctioned the purchase of a clock for installing it on the Municipal Office in commemmoration of the Royal weddings The clock has arrived and action is being taken to instal it on the building

Part II

2 The Municipal council was reconstituted during the year under report The strength of the council was 31 of which 24 members were elected by the rate-payers, and 7 including the President were nominated by Government The following were the members of the reconstituted council and they held the office from 3rd January 1941 to the end of the year

1 Mr B S Raghavendra Rao M A ,(Hons ) President

2 Mr T Mariappa B A ,LL,B Vice-President (from 14-2-1941 )

3 A Krishna Murthy

25 " T Narasimha Iyengar B A , B L

26 Mr T S Alkhan

27 " Mohamed Khalilulla M A , LL B

28 " Haji Mir Ammruddin Khureishi

29 " S A Kareem

30 " B L Maridandiah

31 " F C Devaraja Urs

3 The members of the previous council continued in office from the beginning of the year till the 3rd January 1941 when the council was reconstituted

4 The limits of the Municipality were extended during the year as per Covernment notification No L 5679/M1 91-40-14 dated 27th January 1941 with effect from 1st February 1941

A copy of the printed notification is enclosed The total area of the City which was formerly 9 50 square miles in 1915 with these additions has now come up to 12 75 square miles

## Elections

As the term of the previous Municipal council was due to expire on 2-1-1941, elections were held during the year and the reconstituted council came into office from 3rd January 1941

There was no election in Fort, Nazarabad and Devaraja Mohallas, as the number of candidates that stood for election was equal to the number of councillors to be elected from those Mohallas In the remaining four Mohallas elections took place

Appendix II shows the total number of voters in each Mohalla, the number of persons who actually voted at the elections and other particulars

6 Mr M Navaneetham Naidu B A , was the President of the council from 1-7-1940 to 3-1-1941 I took charge on the afternoon of 2-1-1941, and continued to be in charge of the office till the end of the year

7 Mr F C Devaraja Urs was the Vice-President from 1-7-1940 till 3-1-1941, the date of the reconstitution of the Municipal council Mr T Mariappa was elected Vice-President of the newly constituted council and he took charge on 14-2-1941

8 Messrs B Krishna Iyengar B Sc B E , S Seshagir Rao B Sc M B B S, D P H, and S Abdul Gani B A , continued to be the Municipal Engineer, Health officer and Revenue Officer, respectively during the year under report

## Meetings and Attendance

9 The Municipal council held 12 ordinary, 1 extraordinary and 11 special general meetings during the year The extraordinary meeting of the council was held to send their condolence to the Royal family in connection with the passing away of His Highness Sri Krishnarajendra Wadiyar in August 1940 The main items of business for consideration at the special meetings were for the election of members to the school Board, selection of a Revenue officer to the unicipality election of the Vice-President, and the Municipal Advocate, and for consideration of a resolution tabled by certain members of the Municipal council for requesting the Government to take steps to prevent the rising of prices of food-stuffs in the city, and consideration of Budget Estimates of the ~~reconstituted~~ Municipal council for the year 1941-1942

10 Appendix I shows the number of meetings held and the average attendance of members at the meetings

Committees of the council

10 The following committees were constituted during the year -

| | Executive Committees | Consultative Committees |
|---|---|---|
| 1- | Managing Committee | |
| 2 | Works Committee | 1 Legal Committee |
| 3 | Health Committee | |
| 4 | Town Hall Committee | 2 Audit Committee |

The number of meetings held by these committees is as follows -

| | Name of the Committee | No of meetings |
|---|---|---|
| 1 | Managing Committee | 13 |
| 2 | Work Committee | 15 |
| 3 | Health Committee | 12 |
| 4 | Town Hall Committee | 5 |
| 5 | Legal Committee | 5 |
| 6 | Audit Committee | 3 |

Appendix IV shows the number of meetings held by ~~the~~ each of these committees and the average attendance of members

The City School Board

11 The previous Board continued till the end of April 1941 and the new Board was constituted for the remaining period of the year 1940-1941 as per Government order No E 4293/Edn 64-40-102 of 18-4-1941 There were in all 61 schools under the control of the city Local Education Authority during the year, the number of pupils at the close of the school year being 4377 boys and 3055 girls as against 4399 boys and 2980 girls in the previous year

12 The strength of the Board was 12 including the non-official chairman The Board held 15 meetings during the year of which 11 were ordinary monthly meetings, 1 special meeting and 3 adjourned meetings A detailed report of the Board is appended to this report

The control over schools in the city was transferred to the Education Department with effect from 1st July 1941

Taxes

12 No additional taxes were levied during the year

Amendments to Rules and Bye-laws

13 The following amendments to the existing rules and Bye-laws were sanctioned by Government during the year -

(a) Amendment to the Market Bye-laws adding words ' and the Municipal Evening Bazar' to the list of general Markets appearing under Bye-law No 1 of the Bye-laws relating to Markets-G O No L 10505-6/Me 86-39-126 of 27-6-1940 (with effect from 10-9-1940 )

(b) Amendment to the Mysore City Municipal Rules and Bye-laws, adding the clause "(f) Bicycles belonging to the post and telegraph offices in the Mysore city" ~~xxxx~~ to the list of exemptions appearing against 'tax on vehicles and animals' in appendix C page 235-Vide Government order No L 10575-7/M 86-39-129 of 28-6-1940 (with effect from 5-9-1940)

(c) Government order No L 5679-M1 91-40-14 of 27-1-1941, extending the limits of the Mysore City Municipality comprising parts of Hinakal, Padavarahalli Naragowdanhalli and 13 other villages (with effect from 1-2-1941)

(d) Grant of exemption from payment of octroi duty for a period of three years from 1-2-1941 ~~and~~ to beedies manufactured within the state and imported into the limits of the several Municiplaities (Government order No L 5755/M1 56-40-50 of 30-1-194

(e) Rules and Bye-laws for the registration of and the levy of tax on dogs for preventing the spread of infectious diseases in the Mysore City -Vide Government order No L 9045-46/M 1 57-40-102 dated 26-6-1941 with effect from 1-1-1942 )

## PART III - FINANCE

14 Demand, Collection and Balance -

The demand, collection and Balance statement is noted in Appendix V

The arrears at the beginning of the year amounted to Rs 1,99,101 The demand under all heads during the year including Octroi was Rs 7,19,063 the total demand including arrears being Rs 9,18,164 The collection during the year was Rs 7,90 037 inclusive of remissions aggregating to - Rs 22,346/- The balance at the end of the year was - Rs 1,28,127/- The ratio of total collection under all heads to the total demand works out to 86 00 as against 79 22 in the previous year

15 Assessed Taxes

The arrears under this head at the beginning of the year was Rs 1,92,625/- and a sum of Rs 3,17,150/- was brought on demand during the year, as per details in the margin making a total of Rs 5,09,775/- Out of this a sum of Rs 3,83,270/- (including remissions of Rs 19,028/-) at the end of the year There has been a decided improvement in the collection

| | | |
|---|---|---|
| 1 | Taxes on buildings | Rs 83,489 |
| 2 | Water tax | 50,093 |
| 3 | Lighting tax | 16,698 |
| 4 | Special Sanitary Cess | 37,820 |
| 5 | Drain cess | 5,972 |
| 6 | Flat rate | 1,23,078 |
| | Total | Rs 3,17,150 |

A sum of over Rs 25,000/- relates to over 3 years in respect of which suits are to be filed or have been filed It may also be stated that a good bit of the arrears represents wrong demands and demands under dispute The general revision was completed and came into effect during the current year The revision resulted in an increase in the demand under assessed taxes to the extent of Rs 9,582/- Relevant extracts from the Revision Officer's report are noted below -

" As a result of the revision by the Municipal authorities, the taxes in the case of 4621 houses were enhanced and 1274 objection petitions were received objecting to the proposed levy 136 petitions were rejected as belated and 29 were reminder petitions The total number of petitions for enquiry was 1109 1462 houses were inspected in all by me and by Mr Ranajodasingh with the result that in the case of 892 houses the assessment was reduced and in the case of 566 houses the assessment was confirmed, and in the case of 4 houses the assessment was enhanced Two tabular statements embodying the result of our enquiries are enclosed for kind perusal

The financial result of these transactions are as

follows The demand for 1939-40 under House-tax, Sanitary Cess and Drain Cess was Rs 1,43,181=15=4 36 427-15-5 and 6,217-6-5 respectively making a total of Rs 1,85,827-5-2 The proposed demand for 1940-41 under house tax, sanitary cess and drain cess was respectively Rs 1,53,069-11-6, - Rs 38,550-1-0 and 6,369-0-0 making a total of Rs 1,97,988=12-6 The net result of revision by the Special Officer has been to reduce the proposed demand under house tax, sanitary cess and drain cess respectively to Rs 1,50,880-2-11, Rs 38,220-5-5 amd 6,309=0=0 making a total of Rs1,95,409-8-4 Thus compared to the demand for 1939-40 there has been an increase of Rs 9,582-3-4 in the annual demand A gratifying result during the present revision is that a sum of Rs 3,230-2-0 under sanitary cess and Rs 518-8-0 under drain cess respectively which had escaped being brought on the demand during the previous years, has been now taken on the demand and this is principally due to the care with which the revision work was done by the Revenue Officer of the Municipality and Two Reverue Irspector Mr Verkatasubba Rao

16 Other Items

The demand including arrears under other items of revenue noted in the margin (excluding Octroi, toll and assessed taxes) was Rs 1,51,357/- A sum of Rs 1,49,735/-

| | | |
|---|---|---|
| Vehicle Tax | Rs | 41,578 |
| Other Taxes | | 1,09,779 |
| (Rents on building, Sale proceeds of lands etc Market fees etc ) | | |
| Total | R | 1,51 357 |

was collected during the year leaving a balance of Rs 1,622/- as against Rs 6,758/- in the previous year

17 Incidence of Taxation

The incidence of taxation per head based on the population according to the Census of 1941 worked up to Rs 4-6-6 as against Rs 5-10-5 in the previous year The figure 'Rs 5-10-5' furnished in the last year's report was based on the population of 1931 Census and as already reported therein, that was not the correct incidence of taxation for that year on account of the ~~incidence~~ increase of population in the City On the basis of the present population the incidence of last year would be 4-1-2 as against 4-6-6 in the current year

18 Financial Position

The year opened with a cash balance of Rs 66,604/- The receipt and expenditure under all heads amounted to Rs 8,79,721 and Rs 9,00,178 respectively leaving a balance of Rs 46,147/-

The closing balance excludes a sum of Rs 50,000 invested during the year in the Government Savings Bank The total cash balance including the balance in S B is Rs 96,147 The Municipal Council continued to pay attention to the work of rehabilitation of its finances which it had commenced in the year 1935-36 Strenuous efforts were made for the collection of the heavy outstanding arrears of taxes at the beginning of the year and as a result thereof, the arrears were reduced to less than one lakh of rupees, viz Rs 96,365/- There was marked improvement in the Revenue Collections under all heads, collections under every head being higher than in any of the previous years The figures for the last five years is noted below for purposes of comparison

| Collections under all heads during | |
|---|---|
| 1936-37 | Rs 5,11,407 |
| 1937-38 | Rs 5,57,316 |
| 1938-39 | Rs 5,89,344 |
| 1939-40 | Rs 6,12,871 |
| 1940-41 | Rs 6,62,670 |

The collection staff of this Municipality under the guidance and supervision of their officers exerted themselves to the extent possible to achieve this result

With regard to the still outstanding arrears of mohatarfa, the bakipatties are being carefully scrutinised and action is being taken in each case Suits are being filed in all cases of over 3 years where difficulty in collection is apprehended

PART IV

69 OCTROI

The actual collections under this head were Rs 1,85,697 as against 1,72,991 in the previous year The details of realisations a e given in ap_endix VIII A The increases are mainly under the following heads The collection under this head during the last 5 years is as annexed and the collection this year is the highest on record

(1) Cocoanuts dry (copry) (2) Jaggery (3) Ghee (4) Oil (5) Oil - Ground-nut oil and ground-nut seeds (6) Teak, Beete and Jungle wood (7) Tobacco (8) C P goods (9) Storage fee (10) Musical goods (11) Soaps (12) Glassware (13)Oilman stores (14) colour and metal polish (15) coffee (16) Tea (17) Hosiery (18) Motor and motor accessories (19) metal goods in any shape of form and (20) Asbestos sheets

The increase in revenue is due to larger imports of the goods and also due to proper vigilence over the staff and recovery of octroi on dutiable articles

The collections for the last five years are noted in the margin for ready reference

TAXES ON BUILDI 'GS AND LANDS

Appendix V furnishes the particulars of demand and collection

The revision of assessment which takes place once in five years took place during the current year The Revision was as usual made by the Revenue Officer The following extract from the Revision Officer's report give a brief note on the revision operations

The collection under this head during the last five years is noted below and it will be seen therefrom that the collection this year is the highest on record

| Year | Amount |
|---|---|
| 1936-37 | Rs. 72,712 |
| 1937-38 | Rs 76,848 |
| 1938-39 | Rs 89,065 |
| 1939-40 | Rs. 90,746 |
| 1940-41 | R 94,389 |

22 PUBLIC CONVEYANCES

4

21 POUNDS

The income from "B" realisations under Special Acts - Pounds, was R 2,178 as against 2,316 in the year 1939-40

The cattle pound collection during the year 1940-41 was Rs 2,316/4/8/ as against a sum of R 2,398-14-6 during the previous year The slight fall in the collections, is due to the fact that the cattle nuisance had been considerably abated during the year, due to the vigilent working of the cattle-catching gang

B

KSR

26 The collections of assessed taxes were in cha of the Revenue Officer under whose supervision the Octr Department and Tolls also continued during the year as previous years The Revenue Officer was also in direc charge of the Collection of water charges and market re subject to the general supervision of the Honorary Vice President

22 PUBLIC CONVEYANCES

4

21 POUNDS

The income from "B" realisations under Special Acts - Pounds, was R 2,178 as against 2,316 in the year 1939-40

The cattle pound collection during the year 1940-41 was Rs 2,316/4/8/ as against a sum of R 2,398-14-6 durin the previous year The slight fall in the collections, is due to the fact that the cattle nuisance had been considerably abated during the year, due to the vigilent orking of the cattle-catching gang

B

KSR

22 PUBLIC CONVEYANCES

1834 vehicles were licensed during the year under report as against 1831 in the previous year In licensing the public conveyances precaution was taken to pass for registering only such of the vehicles, especially tongas as were in good condition and had sound ponies

## 23 REVENUE DERIVED FROM MUNICIPAL PROPERTY AND POWERS APART FROM TAXATION

The revenue derived under this head was Rs 1,54,536 as against Rs,1,47,813/- ~~xx xxxxxxx~~ in the previous year and was composed mostly of revenue derived from Municipal Markets and Slaughterhouses and Municipal Farm

## 24 GRANTS AND CONTRIBUTIONS

A sum of Rs 14,268/- was received during the year as against Rs 23,478/- in 1939-40

## 25 MISCELLANEOUS

The receipts under this head were Rs 803/-, as against Rs 2,831/- in the previous year

26 The collections of assessed taxes were in char of the Revenue Officer under whose supervision the Octroi Department and Tolls also continued during the year as in previous years The Revenue Officer was also in direct charge of the Collection of water charges and market rev subject to the general supervision of the Honorary Vice President

## PART V - EXPENDITURE

27 Public Safety and Lighting

There were 2,883 gooseneck lights (including flood lights etc ), 1,040 ornamental lights and 106 dwarf lights in the City at the end of the year 23 Additional lights were installed during the year at the instance of the Municipality, ~~under the guidance and supervision of their Offi-~~

29 DESTRUCTION OF WILD ANIMALS, SNAKES, DOGS ETC

The expenditure under this head was Rs 217/- during the year as against 235 in the previous year

2852 stray dogs were destroyed in the year under report as against 2146 in the previous year

30 PUBLIC WORKS CARRIED OUT BY CIVIL DEPARTMENT

During the year 1940-41 the expenditure under Public works was only Rs 1,05,659 as against Rs 1,47,699 during the year 1939-40 as already stated above The reduced expenditure was due to the fact that in the year 1939-40 under several works such as tarring, metalling roads forming gravel roads and drains, there was a heavy expenditure on account of the loan scheme In the year 1940-41 the expenditure under these subheads was not so heavy

31 The following are the main items of building works executed during the year under report

A Buildings

1 Construction of a kitchen block in the Bus Terminus area at a cost of Rs 899/-

2 Construction of sweepers quarters at a cost of Rs 1 588/-

3 Improvements to market buildings at a cost of Rs 1,214/-

32 B Public latrines and urinals (under the Loan Scheme)

No additional flush latrines and urinals were constructed during the year under report But a sum of Rs 649/- was paid towards the cost of the two flush latrines in Adikarnatakapura and Madigageri in Mandi Mohalla constructed in the year 1939-40 A large programme for construction Public Baths and latrines is on hand and this is being financed from normal Revenues and not from Loan Funds

In all congested areas where there were no regular latrines for houses, the Municipality is providing Public latrines urinals and baths so that poor class of people might make use of these freely For the year 1941-42 provision has been made for constructing latrines, urinals and baths in several places noted below

33

1 Urinal of 3 units behind Co-operators' Home

2 A public bath in Idgah

3 A public bath in Madigageri

4 A flush latrine in Subbarayanakere

5 A public bath in Adikarnatakapura

6 A public bath in Kurimandi

The plan for the combined public latrine and bath provides also for separate places for bathing and washing for men and women respectively A provision of Rs 10,000 has been made in the Budget for this purpose

57(33) C DRAINAGE AND SEWAGE WORKS

In addition to the addition of drains and road crossings at a cost of Rs 12,815 out of the normal funds of the Municipality, a sum of Rs 1,468 was spent towards the execution of underground drainage works during the year out of Loan Funds

34 D TARRING OF ROADS (original)

A sum of Rs 15,348 was spent during the year towards the tarring of roads (original works) out of the normal resources of the Municipality, exclusive of repair works under this head

35 E REPAIRS

An outlay of Rs 78 264/- was incurred during the year for the upkeep and maintenance of roads, buildings drains etc as against Rs 84,737/- in the previous year

Special attention was paid for the proper maintenance of roads and foot-paths

FIELD METALLING ROADS AND IMPROVING FOOT-PATHS

There are still a very large number of roads in thd whole of City which require metalling During the rainy season they get so badly slushy that people find it very difficult to walk nn them It is therefore proposed to take about 30 miles of metalling during the year To metal these roads with burnt metal it would mean a very - heavy investment and the traffic on these roads does not also require this Hence these interior roads are being field metalled, the cost being thus reduced by over 60% A provision of Rs 27,000/- for this purpose has been made in the budget during the year 1941-42 and the work is on hand

In most of the roads foot-paths were badly scoured and people found it very difficult to walk on them Gangs have been formed to regularly fill up these ruts and form the foot-paths with gravel and sand The gangs work continuously on all the foot-paths in rotation so that each portion is attended to at least once in two or three months

Regarding Tar Roads

Most of these roads are "prevented" so as to provide a dustless surface It is now in several cases over 4 years since they were done and ~~xxxxx~~ they require resurfacing This means a heavy cost and the question is therefore being examined Patch repairs are however being made Tar gangs having been formed whose main work is to go on attending to these repairs regularly and systematically

36 PUBLIC WORKS CARRIED OUT BY THE PUBLIC WORKS DEPARTMENT

There were no instances of the kind during the year, other than water supply distribution and improvement works

36(a)

Clearing Storm Water Drain and collection of Sand

For the road works in the City we require more than 1000 cubic yards of sand every year This sand was being collected from hallas outside the town and paid for at a very high rate On examining ~~most of~~ the main storm water drains within Municipal limits it was found that there was a heavy deposition of sand ~~and~~ silt which was preventing free flow of water and the sand collected here was of good quality Most of these are now being cleared and the good sand obtained is exposed and screened and utilised for petty works One of the important drains which has been treated in this manner is the storm water drain running in Peoples Park and Doddakere Sand bed This drain is now functioning very well, after removal of sand and silt Sand thus collected costs less than 0-6-0 per Cyd as against a rate of 1-8-0 to Rs 2-4-0 per Cyd of sand carted from outside

37 WATER SUPPLY TO THE CITY

As in the previous years, improvements to the water supply distributory system in the City were carried out during the year by laying mains and sub-mains in some of the Mohallas where there was absolute necessity

It is understood that the present pumping capacity of the Belagola Unit is not adequate and also that additional reservoirs and filters are necessary As matters stand owing to the difficulty in pumpage and want of capacity in the storage resources considerable difficulty is felt at present for giving adequate water supply to severa parts of the Town during summer and unless improvements to these are effected the position will not improve The Water Supply Sub-Committee that has been constituted to go into this and other matters is looking into this but perhaps on account of War conditions it may not be possible to remedy these defects in the immediate future however much one would like to do so

38 CONSERVANCY

The Health Department of the Municipality was under the direct control of the Health Officer as in previous years The Public Health and the conservancy arrangements were satisfactorily attended to under his supervision

39 PUBLIC HEALTH

The public health of the City was generally good Plague, small pox and influenza appeared and prevailed for some time during the year Timely precautionary and preventive measures were taken to check the spread of the disease

40 Anti-malarial operations and anti-rat campaign were conducted during the year

41 Licenses were granted to hotels, coffee clubs, bakeries etc in strict conformity with the Sanitary rules The number of prosecutions launched for bread of rules is furnished in appendix XVIII

42 381 houses were disinfected during the year

VITAL STATISTICS

43 Births 5,499 births were registered during the year as against 5,195 in the previous year The ratio was 36 32 per mille of population

44 Deaths

3,300 deaths were registered during the year as against 3,466 in the previous year bearing a ratio of 21 80 per mile of population ~~I have to~~ It will thus be seen that the births were heavier and the deaths less than the previous year

45 Infantile mortality

732 infants under 1 year of age died during the year bearing a ratio of 133 11 per 1000 births registered as compared to 663 in the year 1939-40

46 Plague

All the houses in the City were fumed with Cyno-gas and it is gratifying to note that there were no plague complaints There were however 7 imported cases with 4 deaths from this disease The number of attacks during the previous year was 44 and deaths 34

47 Cholera

There was no case of cholera during the year

48 Influenza

There were 37 fatal cases from this disease during the year as against during the previous year

49 Small Pox

There were 9 attacks and 2 deaths in the year as against 338 attacks and 117 deaths in the previous year The 9 cases were imported ones

B

A house to house survey was conducted with reference to the internal drainage the condition of the latrines existence of wells and condition of the premiess of the houses and notices are being issued systematically to owners of buildings wherever defects have been observed during the survey to rectify them In areas - where the underground sewer existed or was newly put up the construction of flush latrines were insisted on and it was seen that house sullage was led into the underground sewer In every case if the above was not complied with even after giving sufficient time prosecutions were launched but wherever the party complied with our requisition the case was subsequently withdrawn The Municipality has also arranged for washing these flush latrines twice a week

In Mysore City the removal of rubbish and night soil is done departmentally and is not given to a contractor this arrangement has been found to be extremely satisfactory and is largely responsible for the clean bill of health in the town The rubbish is all collected and is mainly utilised for making compost in the Sewage Farm Part of the rubbish is used for filling in big hallas and in these cases the rubbish is covered with fresh earth as far as - possible

B

50 VACCINATION

Vaccination continued to be compulsory during the year under report A total of 10,699 vaccirations were performed in the City during the year as compared to 73591 in the previous year Of these 5,869 were primary and 4,830 re-vaccinations The number of successful cases among the primary vaccirations was 4,830 during the year The Municipality maintained 4 vaccirators - 2 males and 2 ferales In the absence of 2 ferale vaccinators, rale vaccinators were entertained temporarily In addition to the 4 permanent vaccinators 4 sub-registrars of Births and Deaths (trained in vaccination work) also attended to vaccination during the year

51 FOOD INSPECTION

1057 samples of all kinds were examined in the Laboratory during the year as against 1,757 samples examined in the previous year Of these, 293 samples of food-stuffs were submitted for analysis under the Mysore Prevention of Adulteration Act, as against 270 samples in the year 1939-40

52 During the year, 141 samples of milk, 76 samples of Ghee, 50 samples of butter, 23 samples of coffee powder and 2 samples of cream were examined and 42 samples of milk 35 samples of ghee, 27 samples of butter and 8 of coffee power were found to be adulterated 63 prosecutions were launched in respect of these adulterated samples and 59 cases ended in conviction, the fines ranging from Re 1/- to Rs 20/- per case Two cases ended in acquittal by Court and two cases had to be withdrawn as the parties could not be traced Six cases were compounded for Rs 95/- and 30 cases of adulteration had to be struck off the roll as in many cases the samples had the requisite labels denoting admixure and some cases could not be successfully instituted 17 cases remained pending disposal at the end of the year

Hotels, eating houses, bakeries etc were inspected by the Health Officer and the Sanitary staff and needful action was taken to remove the defects, prosecutions being launched wherever necessary

B

52 (a) FOOD

It is a common experience of all that ghee, butter and milk are to a great extent adulterated by the vendors In order to prevent this adulteration, the Municipality has been launching a number of cases under the Food Adulteration Act During the year under report, 293 samples were analysed of which 185 were found to be genuine and the rest adulterated Convictions have been obtained in 59 cases the amount of fine aggregating to Rs 463 The rest of the cases were compounded Samples are collected periodically from Hotel keepers, shop-keepers and othervendors and examine and in cases of un-notified adulterations prosecutions launched These surprise inspec ions and taking samples during such inspections is having a good moral effect on the vendors as is seen from the fact that a large number of samples taken during surprise inspections are found to be genuine. Facility has also been created by the Municipality for getting samples received from private bodies analysed

53 ANTI-MALARIA OPERATIONS

~~The~~ Mosquito control work such as treating the wells, nallas, pools, pits, drains etc where mosquitoes were found breeding with paris green and malariol was carried on in the City by the special staff entertained for the purpose

The area behind Saraswathipuram and Kukkarahalli Tank was very marshy due to which there was severe malaria This was due to want of sub-soil drainage and the existence of inumerable pools all over the area During the year considerable work has been done in filling up the pools, in excavating drainage channels, in trimming up the edges of Saraswathipuram pond and, in forming the entire area The people of Saraswathipuram feel that there is a considerable reduction in breeding of mosquitoes during this season Bad and swampy areas in Vontikoppal ~~are~~ aks. being similarly dealt with

Large improvements have also been effected to the Subbarayanakere Tank and the feeder channel to Kukkarahalli tank and also to the maidan and the channel going below Krishnarajavanam The storm-water drains have canalised mounds levelled and pits filled up

The swimming pond is also being remodelled with side walls and flooring so that it may be useful for the public, by beirg free from weeds and slush with which it use to be full formerly It is hoped that ith these improvements the swimming pond will be a very popular resort

B

53(a) The Municipality has undertaken anti-malarial operations for the first time in 1930 to reduce the incidence of malaria in Mysore All pools, puddles, swarps, wells and tanks are being sprayed with malariol or Paris Green The City is divided into convenient divisions and a gang of 18 people is deputed for treating these areas both morning and evening so that the whole area may conveniently be covered within a week One day in the week test checks are made by dipping in various places and also by catching adult mosquitoes in certain number of houses, distributed all over the City Further a spleen survey is undertaken by the Department every year It is gratifying to note that with these systematic efforts of the Health Department the incidence of malaria is steadily going down A graph of the incidence of malaria is enclosed In addition to the temporary measures, permanent measures are also undertaken by closing pits and draining swampy areas and training of channels A striking example of this is near Saraswathipuram where the whole area was full of water pools stagnating for months together due to the deep pits formed by the stealthy removal of mud and manufacture of bricks wherein water collected after the rains All the pits have been filled up and drains cut to lead off the water, with the result the whole area looks very clean, level and dry A similar work is being undertaken below Kukkarahalli tank and in the Goblikere area

E

## 54 LOCAL FUND DISPENSARIES

In addition to the 6 Local Fund Dispensaries that were existing one dispensary was newly sanctioned to Vanivilaspuram during the year under report The number of patients treated in these dispensaries was 3,12,892 as against 2 75,729 in the previous year

MIDWIVES AND MATERNITY

There were 7 midwives including the one sanctioned to Vani Vilaspuram Dispensary which was started in the year under report The total number of labour cases attended to by them during the year was 548 as against 488 in the previous year

The number of births that takes place in a year in Mysore Municipality is 5,600 of which nearly 50% are conducted in the two Maternity Hospitals - Cheluvamba Maternity Hospital and the Holdsworth Memorial Hospital Out of the rest nearly one-third are attended to by eithe the Municipal Midwives and six Trust Midwives and the whole of Mysore City is divided into 13 divisions and eac put in charge of a Midwife

The t o bodies, the Municipality and the Trust are working in close co-ordination and the Midwives are being persuaded to conduct more and more cases It is hoped in course of time that a large number of the cases not conducted in the hospitals will be attended to by qualified midwives only There is also a proposal to hold classes for the Dais (unskilled nurses) and register their names and as they die out, to replace them by skilled midwives The aim is that every woman who delivers should have skilled aid at the time of delivery, thus reducing maternal mortality rate due to the peurpural sepsis and other causes dependent on child-birth

55(a) The Municipality is also subsidising to a large extent the activities of the Gunamba Maternity and Child Welfare Trust . As a matter of fact the Health Officer is one of the Joint Honorary Secretaries and is the Convenor of the Doctors Committee of the Gunamba Trust, and thus supervises this very important branch of Maternity and - Child Welfare work To a proposal of the Trust authorities to open a Creche for taking care of the children of women working in the factories the Municipality promptly responded this year and in addition to the free gift of a building costing about Rs 3,000/- a recurring grant of Rs 50/ per month for the maintenance of this creche has been sanctioned The Creche was opened during the Dasara this year by Mr H B Gundappa Gowda Minister for Local-Self Government and it is expected that it will prove so useful that similar Creches will be started in other places

B

5b INDIGENOUS HOSPITALS, VAIDYASALAS AND DAVAKHANAS

The number of grant-in-aid indigenous and allopathic medical institutions was 14 during the year as against 13 in the previous year

The Municipality is giving a grant a grant to 13 of the Hakims and Vaidyas practicing in Mysore City and these grant-in-aid institutions submit monthly reports of the number of cases treated for various diseases These institutions are being now inspected by the Health Officer In addition to his inspections it was felt that the inspections would be more effective if persons qualified in Ayurvedic and Unani systems should inspect these periodically and certify to their efficiency before the grant-in-aid bills are passed for payment With this in view, periodical inspections of these institutions by the Principal of the Ayurvedic and Unani College, the Superintendents of the Government Ayurvedic and Unani Sections have been arranged for The scheme has been approved in Government Order No dated, They have also been advised to give an impetus for the use by these Vaidyas and Hakims of Medicines prepared in the Government Ayurvedic and Unani Pharmacy

57 Public gardens and buildings 46

The peoples park and the Cheluvamba Park and the Kengacharlu Memorial Hall continued to be under the control of the Municipality during the year The cost of maintenance of the public gardens was Rs 4,097 during the year as against 4,221 in the previous year

MARKETS

Attempts are being made to keep the market always clean and sanitary by frequent inspections by the superior Officers The collections are quite satisfactory and are quite prompt month to month with the result that there are no arrears as far as the current demand goes The arrears relate to previous arrears which are being examined They are mostly to be written off A large sum of Rs 5,133/-was spent on Devaraja Market during 1940-41 under both improvements and repairs The important improvements effected were the provision of good sun lighting arrangements in the fruit and vegetable stalls, provision of litter-bins to each pillar in the market, provision of R C C , ~~was~~ cisterns, - and extending the platform of onion stalls Under repairs a large area of leaky portions of the terrace was repaired, and also a number of shops and stalls in the Mutton Market were repaired and improved

57 MARKETS AND SLAUGHTER HOUSES

There were 4 markets and 2 small vegetable markets at Erangere and Vanivilaspuram, and 2 slaughter houses The incore from the markets and slaughter houses amounted to R 1,00,439 as against 88,021 in the previous year The system of collection of daily fees in Devaraja Market contirued during the year

The markets and slaughter houses were systematically inspected by the Sanitary staff and the corcerned officers during the year, and all unwholesome articles of food, fruits, vegetables etc were got destroyed

69,554 animals were slaughtered during the year in the two Municipal slaughte houses as against 72,119 in the previous year The animals slaughtered were

| | 1940-41 | 1939-40 |
|---|---|---|
| Sheep | 50,533 | 54,467 |
| Bullocks | 2,508 | 2,750 |
| Goats | 13,845 | 11,940 |
| Cows | 2,000 | 2,212 |
| Buffaloes | 668 | 750 |
| | 69,554 | 72,119 |

AVENUES

The avenues in the Municipality were looked after by the staff specially employed for the purpose, under the supervision of the Municipal Engineer

A number of ugly trees and plantings were removed and replaced by ne ones A number of new avenue plants were also planted during the year and the vacancies are being filled up The Register of Avenue trees is being brought up-to-date and all avenue trees are being numbered

61 Municipal Farm The extent of the Municipal Farm was 175 acres of which 23 acres were taken by roads and buildings About 20 acres is set apart to the manufacture of compost and about 12 acres as a pasture for dry cattle to graze The rest of the land is under cultivation Grass such as Rhodes grass Napier grass and Guniea grass and vegetables of all types are the main source of revenue in the Farm The vegetables grown in the Farm are very largely in demand and it has been found necessary as to increase the acreage

The main outfall of the sewerage system in Mysore is the Sewage Farm The Sewage is treated in a septic tank and the effluent is utilised for irrigation The quantity of sewage received per day is two million gallons, and the area under cultivation is inadequate to take in this large amount of sewage It has been found therefore expedient to extend the area under cultivation The Municipality therefore acquire 47 acres of land to the east of the Farm and has proposed to acquire some more land in order to treat the whole of the sewerage The question of extending the septic tank is receiving the attention of the Municipality The Farm has been under cortinuous irrigation for the past 15 years and more without the soil becomin sewage-sick This is due to partly to the porosity of the soil and partly to the system of irrigation A bridge has been constructed across the central channel in order to facilitate the transport of produce from the eastern side to the western side of the Farm A sum of Rs 10000/- has been allotted this year for improvements and this sum is proposed to be utilised for constructing ideal cattle sheds, for improving the roads and installing a pump

Income per head ?

The dry cattle shed - a scheme which is attracting the attention of the public and is becoming increasingly popular Dry cattle are stalled here on payment of Rs 2/- per head of cattle per month The Cattle are looked after by the farm authorities and allowed to graze in the Rich fields of Municipal farm A revenue of Rs 230/- per month or nearly Rs 2,700/- per annum is being realised out of this, the expenditure being only about Rs 32/- per month or Rs 400/- per annum The Veterinary Inspector - attached to the Farm gives any medical assistance necessary There is a proposal to improve the cattle shed and also to see how far it would be possible to start a Dairy Farm with the Municipal Sewage Farm as the nucleus

Pay

62 COMPOST

The manufacture of corpost out of street rubbish and night-soil was continued during the year

A quantity of 2 000 tons of this manure was manu factured during the year as against 2 500 tons in the previous year This lower out-put is due to the increased number of treatments given to the rubbish piles with a vie to improve the quality of the compost

The revenue from the sale of compost during the year was Rs 2,477 as against 5,746 in the previous year The total sale of compost during the year amounted to only 1,273 tons

63 MUNICIPAL AND GRANT-IN-AID SCHOOLS

The Municipal council continued to be the Local Education authority in respect of Primary Schools in Mysore City The control of these schools was handed over to Government on 1st July 1941 as per Government Order No
Dated There were in all 61 such schools at the end of the year with combined strength of 7,432 against 7,379 in the previous year

64 PUBLIC READING ROOMS AND LIBRARIES

The grants of Rs 200/- to the Public Library Rs 100/- to the Literary Union and Rs 150/- to Anjuman-e-Ithade Islam free reading room were made during the year

65 BUILDING LICENSES

51 applications were pending at the beginning of the year, and 2,543 were received during the year making a total of 2,549 to be dealt with Licenses were granted in respect of 1,873 cases and licenses were refused in 645 cases, the total number of applications ~~being~~ disposed of being 2,518 during the year The number that remained undisposed of at the end of the year was 76

As it was felt that the Municipal Engineer, on account of his multifarious duties could not give sufficient attention for this important branch of controlling the construction of buildings by proper scrutiny of building licenses, the Municipal Council recommended the appointment of a separate Officer of the grade of a Sub-Engineer as a Licensing officer for the Municipality The proposals have been approved and an Officer has since been posted for this purpose

XXX 66 Prosecutions 54

The prosecutions instituted during the year chiefly related to the breach of octroi bye-laws, building bye-laws, sanitary rules, rules under the public conveyance Act and Act for the prevention of food adultration

Appendix XVIII furnishes the results of prosecutions instituted during the year

67 Municipal Advocate

Mr S Chinnaswami Setty B A ,LL B continued as Municipal Advocate till 28-5-1941, when he was suceeded by Mr M Shankariah B A , LL B

68 Audit of accounts

The system of pre-audit was continued during the year of report

69 Establishment

The following establishments were sanctioned during the year -

(a) continuation of the services of Mr S R Ramaswami Sastri of the Agricultural Department for work in the compost section for another year from 17-5-1940(G O No A F 6798-9/Agri 253-39-2 dated 10-6-1940)

(b) Extention of the term of the temporary watchman of the Town Hall for a period of one year from 1-7-1940(G O No L 10435-6/M1 27-9-78 dated 24-6-1940

(c) continuance during 1940-41, of the the establishment entertained for the abatement of the cattle nuisance in the city (G O No L 10512-3/M 1 27-39-84 dated 27-6-1940)

(d) Continuance of the following temporary establishments during 1940-41 -

1 Compost
2 Cattle shed
3 Anti Malaria
4 ork shop
5 Additional pipe line establishment
6 Establishment for labour on Municipal farm

(G O No L 10510-11/M 1 27-39-82 dated 27-6-1940)

(e) continuance of the temporary establishment relating to the collection of ~~tax~~ taxes during the year 1940-1941 (G O No L 10580-1/M 1 57-36 80 dated 28-6-1940

(f) appointment of the city Magistrate as Revising Authority for disposal of Objections in respect of the revised valuation and assessment on buildings and lands in the city for a period of 6½ months (vide G O No
L 30-3/M 1 27-39-86 dated 3-7-1940
L 3375-8/M1 31-40-8 dated 5-11-1940
L 5393-76/M1 31-60-21 dated 16-1-1941

(G) Continuance of the temporary establishment consisting of 1 Revenue Inspector and 3 clerks

3 clerks till the end of November (G O D 2416-7/M1 31-40-4 dated 24-9-1940)

(h) continuance of the services of the temporary accountant of the Engineering section till the end of June 1941 (Vide G O No L 3359-60/M1 31-40-10 dated 5-11-1940

(i) continuance of the term of Enquiry clerk till the end of March 1941 (G O No L 5334-35/M1 31-40--27 dated 25-2-1941)

(o) G O No L 5318-19/M1 31-40~~22-4~~9 dated 15-1-1941 sanctioning an allowance of Rs 3/- per mensum to the peon who attends to the stencilling work

PROPAGANDA - GENERAL

With a view to educate the public and keep them informed about the administrative affairs of the Municipality in all its branches a series of lectures were arranged to be delivered through Akash-Vani on matters relating to Municipal Adminstration It has also been arranged to get these lectures printed and published

Arrangements are also being made for giving magic lantern lectures on Public Health and Sanitation, Epidemic Diseases and their precautions etc , in every Mohalla of the City and in all the Schools The housing programme for the Scavengers and sweepers is being rapidly pursued A proposal is under consideration to sell the houses to such of the sweepers as are prepared to purchase them and utilise the proceeds also for building more houses Two units consisting of × houses ~~where~~ were completed during the year under report A sum of Rs 10,000/- has been provided in the budget for 1941-42 for the building of Sweepers' houses Special attention is also being paid to keep the areas round the sweepers' quarters clean and tidy Children's play apparatus is being provided in these places It is also under consideration to institute a system of prizes for the best maintained sweepers' quarters

A scheme has also been submitted to Government for the institution of a system of Provident Fund for sweepers At present these sweepers have neither Provident Fund nor insurance benefits and it was felt that it was desirable to make their services more attractice by giving them continuity of tenure subject to good conduct by the introduction of a Provident Fund Scheme Incidentally the question of grant of gratuity to such persons who retire and who do not derive the full benefits

of the Provident Fund Scheme has also been recommended

The question of starting a Co-operative Society for the benefit of Municipal Sweepers is also engaging the earnest attention of the Municipality

The Municipal Council has also sanctioned a scheme for an itinerent dispensary for the benefit of this class of persons and generally to the public The details are being worked out in consultation with the Senior Surgeon

The appointment of a Welfare Officer to look after the welfare of harijans is also actively under consideration In the meanwhile steps are being taken to give necessary facilities for their education food and sanitation of the areas in which these classes of people live

B

## 7/ CONCLUSION

The working of the department was on the whole satisfactory and I wish to take this opportunity to thank the Municipal Engineer the Health Officer and the Revenue Officer and all the subordinates for their very close co-operation with me in the conduct of the administration The relations between the Municipal Executive and the Councillors on the whole continued to be satisfactory

The acknowledgements of the executive are due to the two Vice-Presidents (Mr F C Devaraja Urs and Mr T Mariappa) and to the Municipal Councillors for their kind continued interest co-operation and valuable suggestions in the working of the Municipality

H V Narayana Rao, Esq , B A ,LL B ,
Secretary to Government, Law Department,
BANGALORE CITY

SECY LAW DEPT
18 FEB 1942
GOVT OF MYSORE

In continuation of my letter No G T 1445 dated 19th December 1941 forwarding as desired in your telegram dated 16th December 1941, the draft Administration Report of the Mysore City Municipality with the necessary statements, I have the honour to state that when the report was placed before the Municipal Council on 9th February 1942 the Council passed a resolution as under

A

"Deferred subject No 505 Draft report on the Administration of the Mysore City Municipal Council for the year 1940-41

"Resolved that as the draft report for 1940-41 placed before the Council is incomplete and not properly arranged in a logical and intelligible manner this Council under Section 215 desires the President to redraft the same on the lines indicated (vide enclosure) and bring it before the Council again for consideration"

Proposed by Mr T Mariappa
Seconded by Mr P Sitaramiah

'CARRIED'

It was explained to them that the report had been drawn up in accordance with the standing orders of Government and was arranged in the same manner and contained all the information which was usual to be furnished in these reports, as was being done during the ~~perious~~ previous years But this was not accepted It was also placed before the Council that under Section 215 of the Mysore City Municipalities Act, the Municipal Council shall submit to the Government, a report on the administration during the preceding official year in such form and with such details as the Government may direct ~~that~~

and (2) in a Municipality for which there is a Municipal Commissioner, the Municipal Commissioner and in other Municipalities the President shall prepare the report and place it before the Municipal Council for consideration and forward it to the Government with the resolution of the Municipal Council thereon and that they may by virtue of the provision in the Act referred to above their observations on the report now placed before them put the same in the form of a Resolution and pass it But if any alteration in the form itself or in the details to be furnished were to be made a specific resolution might be brought up for consideration and sanction of Government thereto be obtained under Section 215 This was not accepted and the view put forward was that the report is that of the Municipal Council and therefore the report should be drafted in the form they proposed as the present report was incomplete not properly arranged logical and intelligible

I enclose herein for the information of Government the detailed note which forms part of the resolution explaining the form and manner in which the Municipal Council would like to have the report redrafted

~~The connected papers are enclosed for orders of Govern~~ ment.

I may add in this connection that the form now adopted follows the form prescribed in Appendix B Municipal Manual Part II Accounts (Page 141)

I have the honour to be,
Sir,
Your most obedient servant,

B Rashavendra

PRESIDENT 14/2

KSR

Council Meeting held on 9th February 1942

---

Mr Mariyappa dictated the following notes

I General - No alteration need be made

II The following should be incorporated in part II To begin with, the names of the Municipa Councillors that held office from 1st July upto 31st December 1940 should be given

ii The number of committees that functioned during that half year and the personnel of those committees during that half year

iii The names of members of the reconstituted Municipal Council from the 3rd January 1941

iv The Committees that were reconstituted during the latter half of the year 1940-41 and the personnel

v The names of the Sub-committees if any that were constituted during the year and the number of meetings that were held both in the case the Municiapl Council and these committees

vi The name of the President for the first half year and his work he has turned out during his half y may be mentioned in brief, with the numb of inspections he was able to attend to

In the same manner the name of the Presider in the latter half year and the work he has turnec out with the number of inspections he has been able to attend

111 The important resolution that the Cou has passed during the entire year with the action taken thereon The special committees that were constituted and the scope and the nature of the w ~~that they were able to do during their tenure of~~

ork that they were able to do during their term of office (all this must be in one para )

IV Municipal Finances Under this head the financial position in the municipal council may be briefly reviewed with reference to the financial position that obtained during the previous 5 years The various measures that were undertaken to improve the finances and th recover the arrears that accumulated at the end of the year may also be noted The special schemes for which any loan taken during this year if any, may also be noted

V As in para 3 of the present draft report D C B statement, assessed taxes and the General Revision should be mentioned

It is very desirable that while dealing with the financial position in the Municipal Council the capacity of the rate-payer to bear any more burden may also be mentioned with a view to explore further possibility to direct or indirect taxation to augment financial receipts

VI Administration of different sections of the Municipal Council

It is better to give brief reports of each of the sections of the Municipal Council

i Head Office and its work

ii Vice-President and his office and the sections over which he had control under delegated xxxx authority may be dealt with in detail, viz

(a) Water supply and its revenue

(b) Markets and Hackney carriage Sections

iii Revenue Section - Revenue officer and his work new levy of assessment on xxxx houses and lands during the year, if any, and the increased income to the Municipality under that head

(a) Octroi and Toll

(b) Cattle pound

~~(c)~~
iv Public Health Section

a) Fealth Officer and his work

b) Vital statistics

c) Epidemics, if any

d) Granting of licenses

e) Prosecutions

f) Adulteration of food stuff and its control

g) Anti-malarial and anti-rat campaign

h) Dispensaries

i) Pandits and Hakims

j) Health propaganda

Sweepers and scavengers Their welfare work (2) Housing (3) Medical fecilities (4) Their debt relief, if any (5) Clothing (6) Provident fund

Sewage Farm Manager - Its general administration Income and expenditure — Area available for cultivation — Its several features and the scope of its further development

Laboratory work in the Health Section - Intensive street cleaning once a week - a special feature of the Health Section

Public baths and urinals — The number of public baths and urinals that are in existence, and the measure to increase their number

Relationship of the Municipal Council with Maternity and Child Welfare activities in the City

Administration of Milk centres

ENGINEERING SECTION

i The names of the Engineers and their work

ii The number of licenses applied for during the year and the number of licenses refused and the number of licenses granted what are the difficulties felt and the measures to check unauthorized constructions

iii Original works undertaken by the unicipal council

iv Repairs

)a) Tar Roads
b) Metal roads
c) Gravel roads

v Drainage and sewage works

vi Storm water drains

vii Avenues and public baths

viii Public amusements

Municipal grants to official and non-official institutions in the City

a) Physical culture
b) Literacy campaign, and the work turned out by the Literacy Council with the Municipal grants

# MYSORE CITY MUNICIPALITY

## REPORT ON THE ADMINISTRATION OF THE MYSORE CITY MUNICIPAL COUNCIL FOR THE YEAR 1940 41

PARTS I—V

WD 93 —GBPM —40—16 1 42

# Report on the Administration of the Mysore City Municipal Council for the year 1940 41

## PART I—Important Events during the Year

1 The year was marked by a most sorrowful event *viz* the passing away of His Highness Sri Krishnarajendra Wadiyar Bahadur C C S I O B E a great and a saintly Ruler beloved of all his people and the maker of Modern Mysore At its meeting held on 5th August 1940 the Municipal Council sent their condolence to the Huzur Secretary to His Highness the Maharaja of Mysore

The Pattabhishekam of our present beloved Maharaja His Highness Sri Jayachamarajendra Wadiyar was celebrated on 7th September 1940 and the two succeeding days with great eclat

In the meeting of the Municipal Council held on the 31st August 1940 the following Resolution was unanimously passed —

The Mysore City Municipal Council begs most respectfully to offer its heartiest felicitations to His Highness Sri Jayachamarajendra Wadiyar Bahadur on the auspicious occasion of His Highness's assumption of the Exalted Office of Ruler of Mysore and prays the Almighty to bless His Highness with long life health and prosperity and with a happy and glorious reign

During the month of June 1941 the marriages in the Royal Household of Princess Sri Vijayalal shammanni Avaru with the Thakore Sahib of Kotada Sangani and of Princes Sri Jayachamundi Ammanni Avaru with His Highness the Maharaja of Bharatpur were celebrated The Municipal Council offered its respectful felicitations and submitted flowers to the bridal couple on the procession day at a pendal specially erected for the purpose The Municipal Council also contributed a sum of Rs 1 000 for clothing the scavengers in honour of the occasion They have also sanctioned the purchase of a clock for installing it on the Municipal Office in commemoration of the Royal weddings The clock has arrived and action is being taken to instal it on the building

2 *Census Operations* —The eighth decennial census took place on the night of 28th February 1941 and on 1st March 1941 The population of the city as recorded in this census was 150 363 as against 107 142 in the census of 1931 showing an increase of 43 221

Of the total population of 150 363 the number of literates is found to be 55 261 as noted below the percentage of literacy working out to 36 7 per cent

| | | *Population* | *Literacy* |
|---|---|---|---|
| 1 | Males | 79 109 | 37 665 |
| 2 | Females | 71 254 | 17 596 |
| | Total | 150 363 | 55 261 or 36 |

An expenditure of Rs 400 was incurred by the municipality in connection with the entertainment of temporary establishment of 20 maistries on a pay of Rs 15 each for about a month to assist the Municipal staff in the measurement of sites and tenements in the city the expenditure having been sanctioned by the Council in their resolution dated 15th October 1940 as per instruction contained in G O No I 13 53 67—Ml 96-40-2 dated 10th August 1940

For purposes of census the city was divided into three charges of wider divisions in charge of the Health Officer the Municipal Engineer and the Revenue Officer and most of the officials both ministerial and executive had to work either as Supervisors or Enumerators The regular work in the municipality suffered to some extent as these offices or officials had to devote greater and sustained attention for about 6 months in the year in connection with the several operations—both preliminary and final

There was also a special census of beggars in the city undertaken as per instructions of Grant contained in G O No G 51-59-64—Census 34-40-1 dated 12th December 1940 The number of beggars censused was 2 744 as noted below —

| | | | |
|---|---|---|---|
| Local beggars | 1 923 | Males | 1 970 |
| Outside | 821 | Females | 74 |
| Total | 2 744 | Total | 741 |

An expenditure of about Rs 660 incurred in this connection was met out of the Census Budget

A census of industrial concerns employing both less than 10 persons and 10 persons and above was also taken during the year the entire work devoting upon the municipality

## PART II

3 The Municipal Council was reconstituted during the year under report The strength of the council was 31 of which 24 member were elected by the rate payers and 7 including the President were nominated by Government The following were the members of the reconstituted council and they held the office from 3rd January 1941 to the end of the year —

1 Mr B S Raghavendra Rao M A (Hons ) *President*
2 T Mallappa B A LL B *Vice President* (from 14-2-1941)
3 A Krishna Murty
4 S Linganna
5 U L Ramachandra Rao
6 Chowdiah
7 M K Linganna B A LL B
8 M C Mallappa
9 P Sitaramiah B A B L
10 C S Dixit B A LL B
11 A N Suryanarayana Rao
12 N Rajagopala Iyengar B A B L
13 Mrs B Kameswaramma B A
14 Mr Agaram Rangiah
15 B Narayanaswami B A B L
16 M V Venkataramiah
17 M S Nanjappa
18 G R Rangaswamiah
19 E P Nanjappa
20 A J Ram
21 G Janardhan Naidu
22 Patnam Sreenivasa Setty
23 M R C Dasappa
24 T Venkataramaniah
25 T Narasimha Iyengar B A B L
26 T S Ahkhan
27 Mohamed Khalilulla M A LL B
28 Haji Mir Ammiruddin Khureishi
29 S A Kareem
30 B L Maridandiah
31 F C Devaraja Urs

4 The members of the previous council continued in office from the beginning of the year till the 3rd January 1941 when the council was reconstituted

5 The limits of the Municipality were extended during the year as per Government Notification No I 5679—Ml 91 40 14 dated 27th January 1941 with effect from 1st February 1941

A copy of the printed notification is enclosed The total area of the city which was formerly 9 50 square miles in 1915 with these additions has now come up to 12 75 square miles

6 *Elections*—As the term of the previous Municipal Council was due to expire on 2 1 1941 elections were held during the year and the reconstituted council came into office from 3rd January 1941

There was no election in Fort Nazarbad and Devaraja Mohallas as the number of candidates that stood for election was equal to the number of councillors to be elected from those mohallas In the remaining four mohallas elections took place

APPENDIX II shows the total number of voters in each mohalla the number of persons who actually voted at the elections and other particulars

**7** Mr M Navaneetham Naidu BA BL was the President of the council from 1 7 1940 to 2 1 1941 He took charge on the afternoon of 2 1 1941 and continued to be in charge of the office till the end of the year

**8** Mr F C Devaraja Urs was the Vice President from 1 7 1940 till 3 1 1941 the date of the reconstitution of the Municipal Council Mr T Mariappa was elected Vice President by the newly constituted council and he took charge on 14 2 1941

**9** Messrs B Krishna Iyengar BSC BE S Seshagiri Rao BSC MBBS DPH and S Abdul Gani BA continued to be the Municipal Engineer Health Officer and Revenue Officer respectively during the year under report

**10** *Meetings and Attendance*—The Municipal Council held 12 ordinary 1 extraordinary and 11 special general meetings during the year The extraordinary meeting of the council was held to send their condolence to the Royal family in connection with the passing away of His Highness Sri Krishnarajendra Wadiyar in August 1940 The main items of business for consideration at the special meetings were for the election of members to the School Board selection of a Revenue Officer to the Municipality election of the Vice President and the Municipal Advocate and for consideration of a resolution tabled by certain members of the Municipal Council for requesting the Government to take steps to prevent the rising of prices of food stuffs in the city and for consideration of Budget Estimates of the Municipal Council for the year 1941–42

APPENDIX I shows the number of meetings held and the average attendance of members at the meetings

**11** *Committees of the Council*—The following committees were constituted during the year —

| *Executive Committees* | *Consultative Committees* |
|---|---|
| 1 Managing Committee | 1 Legal Committee |
| 2 Works Committee | 2 Audit Committee |
| 3 Health Committee | |
| 4 Town Hall Committee | |

The number of meetings held by these committees is as follows —

| | *Name of the Committee* | *No of Meetings* |
|---|---|---|
| 1 | Managing Committee | 13 |
| 2 | Works Committee | 15 |
| 3 | Health Committee | 12 |
| 4 | Town Hall Committee | 5 |
| 5 | Legal Committee | 5 |
| 6 | Audit Committee | 3 |

APPENDIX IV shows the number of meetings held by each of these committees and the average attendance of members

**12** *The City School Board*—The previous Board continued till the end of April 1941 and the new Board was constituted for the remaining period of the year 1940–41 as per Government Order No E 4293—Edn 64 40 102 of 18 4 1941 There were in all 61 schools under the control of the City Local Education Authority during the year the number of pupils at the close of the school year being 4 377 boys and 3 055 girls as against 4 399 boys and 2 980 girls in the previous year

The strength of the Board was 12 including the non official Chairman The Board held 15 meetings during the year of which 11 were ordinary monthly meetings 1 special meeting and 3 adjourned meetings A detailed report of the Board is appended to this report

The control over schools in the city was transferred to the Education Department with effect from 1st July 1941

**13** *Taxes*—No additional taxes were levied during the year

**14** *Amendments to Rules and Bye Laws*—The following amendments to the existing Rules and Bye Laws were sanctioned by Government during the year —

(*a*) Amendment to the Market Bye Laws adding words and the Municipal Evening Bazaar to the I ist of General Market appearing under Bye Law No 1 of the Bye Laws relating to Markets— G O No L 10505-6/M1 86-39-1?6 of ?7-6-1940 (with effect from 10 9-1940)

(*b*) Amendment to the Mysore City Municipal Rules and Bye Laws adding the clause (*f*) Bicycles belonging to the Post and Telegraph Offices in the Mysore city to the list of exemptions appearing against tax on vehicles and animals in APPENDIX C page 235 (Government Order No L 10575 7/M1 86-39-129 of 28 6 1940) (with effect from 5 9 1940)

(c) Government Order No L 5679/Ml 91-40-14 of 27 1 1941 extending the limits of the Mysore City Municipality comprising parts of Hinakal Padavarahalli Maragowdanhalli and 13 other villages (with effect from 1 2 1941)

(d) Grant of exemption from payment of octori duty for a period of three years from 1 2 1941 on beedies manufactured within the State and imported into the limits of the several municipalities (Government Order No L 5755/Ml 56-40-50 of 30 1 1941)

(e) Rules and Bye Laws for the regi tration of and the levy of tax on dogs for preventing the spread of infectious diseases in the Mysore City (Government Order No I 9045 46/Ml 57 40 102 dated 26 6 1941) (with effect from 1 1 1942)

## PART III—Finance

**15** *Demand Collection and Balance*—The demand collection and balance statement is noted in APPENDIX V

The arrears at the beginning of the year amounted to Rs 1 99 101 The demand under all heads during the year including Octroi was Rs 7 19 063 the total demand including arrears being Rs 9 18 164 The collection during the year was Rs 7 90 037 inclusive of remissions aggregating to Rs 22 346 The balance at the end of the year was Rs 1 28 127 The ratio of total collection under all heads to the total demand works out to 86 00 as against 79 22 in the previous year

**16** *Assessed Taxes*—The arrears under this head at the beginning of the year was Rs 1 92 625 and a sum of Rs 3 17 150 was brought on demand during the year as per details given below making a total of Rs 5 09 775 Out of this a sum of Rs 3 83 270 (including remissions of Rs 19 028) was collected leaving a balance of Rs 1 26 505 at the end of the year There has thus been a decided improvement in the collection

| | | Rs |
|---|---|---|
| 1 | Taxes on buildings | 83 489 |
| 2 | Water Tax | 80 093 |
| 3 | Lighting Tax | 16 698 |
| 4 | Special Sanitary Cess | 37 8 0 |
| 5 | Drain Cess | 9 972 |
| 6 | Flat rate | 1 23 078 |
| | Total | 3 17 150 |

A sum of over Rs 25 000 relates to over 3 years in respect of which suits are to be filed or have been filed It may also be stated that a good bit of the arrears represents wrong demands and demands under dispute

The general revision was completed and came into effect during the current year The revision resulted in an increase in the demand under assessed taxes to the extent of Rs 9 582 Relevent extracts from the Revision Officer's report are noted below —

As a result of the revision by the Municipal Authorities the taxes in the case of 4 691 houses were enhanced and 1 274 objection petitions were received objecting to the proposed levy 1 6 petitions were rejected as belated and 29 were reminder petitions The total number of petitions for enquiry was 1 109 1 462 houses were inspected in all by me and by Mr Ranajodhasingh with the result that in the case of 892 houses the assessment was reduced and in the case of 566 houses the assessment was confirmed and in the case of 4 houses the assessment was enhanced Two tabular statements embodying the result of our enquiries are enclosed for kind perusal

The financial result of these transactions are as follows —The demand for 1939-40 under House tax Sanitary Cess and Drain Cess was Rs 1 43 181-1 4 Rs 36 421-15-5 and Rs 6 217-6-5 respectively making a total of Rs 1 85 827-5-2 The proposed demand for 1940 41 under House Tax Sanitary Cess and Drain Cess was respectively Rs 1 53 069-11 6 Rs 38 550-1 0 and Rs 6 369-0 0 making a total of Rs 1 97 988-12-6 The net result of revision by the Special Officer has been to reduce the proposed demand under House Tax Sanitary Cess and Drain Cess respectively to Rs 1 50 880-2-11 Rs 38 220-5-5 and Rs 6 309-0-0 making a total of Rs 1 95 409-8 4 Thus compared to the demand for 1939-40 there has been an increase of Rs 9 582-3 4 in the annual demand A gratifying result during the present revision is that a sum of Rs 3 230 2-0 under Sanitary Cess and Rs 518 8-0 under Drain Cess respectively which had escaped being brought on the demand during the previous years has been now taken on the demand and this is principally due to the care with which the revision work was done by the Revenue Officer of the Municipality and the Revenue Inspector Mr Venkatasubba Rao

**17** *Other Items*—The demand including arrears under other items of revenue given below (excluding Octroi Toll and Assessed Taxes) was Rs 1 51 357 A sum of Rs 1 49 735 was collected during the year leaving a balance of Rs 1 622 as against Rs 6 758 in the previous year

| | Rs |
|---|---|
| Vehicle Tax | 41 578 |
| Other Taxes (rents on buildings sale proceeds of lands market fees etc ) | 1 09 779 |
| Total | 1 51 357 |

**18** *Incidence of Taxation* —The incidence of taxation per head based on the population according to the Census of 1941 worked up to Rs 4-6-6 as against Rs 5-10-5 in the previous year The figure Rs 5 10-5 furnished in the last year s report was based on the population of 1931 Census and as already reported therein that was not the correct incidence of taxation for that year on account of the increase of population in the city On the basis of the present population the incidence of last year would be Rs 4-1-2 as against Rs 4-6-6 in the current year

**19** *Financial Position* —The year opened with a cash balance of Rs 66 604 The receipt and expenditure under all heads amounted to Rs 8 79 721 and to Rs 9 00 178 respectively leaving a closing balance of Rs 46 147

The closing balance excludes a sum of Rs 50 000 invested during the year in the Government Savings Bank The total cash balance including the balance in Savings Bank is Rs 96 147

The Municipal Council continued to pay attention to the work of rehabilitation of its finances which it had commenced in the year 1935 36 Strenuous efforts were made for the collection of the heavy outstanding arrears of taxes at the begin ning of the year and as a result thereof the arrears were reduced to less than one lakh of rupees *viz* Rs 96 365 There was marked improvement in the revenue collections under all heads collections under every head being higher than in any of the previous years The figures for the last five years are noted below for purposes of comparison

Collections under all heads (A) during —

| *Year* | *Amount* Rs |
|---|---|
| 1936-37 | 5 11 407 |
| 1937-38 | 5 57 316 |
| 1938-39 | 5 89 344 |
| 1939-40 | 6 12 871 |
| 1940-41 | 6 62 670 |

The collection staff of this municipality under the guidance and supervision of their officers exerted themselves to the extent possible to achieve this result

With regard to the still outstanding arrears of mohatarfa the bakipatties are being carefully scrutinised and action is being taken in each case Suits are being filed in all cases of over 3 years where difficulty in collection is apprehended

## PART IV

**20** *Octroi* —The actual collections under this head were Rs 1 85 697 as against Rs 1 72 991 in the previous year The details of realisations are given in APPENDIX VIII A The increases are mainly under the following heads —

(1) Cocoanuts dry (copry) (2) Jaggery (3) Ghee (4) Oil (5) Oil—Ground nut oil and ground nut seeds (6) Leak Beete and Jungle wood (7) Tobacco (8) C P Goods (9) Storage fee (10) Musical goods (11) Soaps (12) Glassware (13) Oilman Stores (14) Colour and metal polish (15) Coffee (16) Tea (17) Hosiery (18) Motor and motor accessories (19) Metal goods in any shape or form and (20) Asbestos sheets

The increase in revenue is due to larger imports of the goods and also due to proper vigilance over the staff and recovery of octroi on dutiable articles

The collections for the last five years are given below for ready reference The collection of this year is the highest on record

| *Year* | *Amount* Rs |
|---|---|
| 1936-37 | 1 44 613 |
| 1937-38 | 1 66 100 |
| 1938-39 | 1 67 710 |
| 1939-40 | 1 72 991 |
| 1940-41 | 1 85 697 |

**21** *Taxes on Buildings and Lands*—APPENDIX V furnishes the particulars of demand and collection

The revision of assessment which takes place once in five years took place during the current year The revision was as usual made by the Revenue Officer

The collection under this head during the last five years is noted below and it will be seen therefrom that the collection this year is the highest on record

| *Year* | *Amount* |
|---|---|
| | Rs |
| 1936-37 | 72 712 |
| 1937-38 | 76 848 |
| 1938-39 | 89 065 |
| 1939-40 | 90 746 |
| 1940-41 | 94 389 |

**22** *Pounds*—The cattle pound collection during the year 1940-41 was Rs 2 316 4 8 as against a sum of Rs 2 398 14 6 during the previous year The slight fall in the collections is due to the fact that the cattle nuisance had been considerably abated during the year due to the vigilant working of the cattle catching gang

**23** *Public Conveyances*—1 834 vehicles were licensed during the year under report as against 1 831 in the previous year In licensing the public conveyances precaution was taken to pass for registering only such of the vehicles especially tongas as were in good condition and had sound ponies

**24** *Revenue derived from Municipal Property and Powers apart from Taxation*—The revenue derived under this head was Rs 1 54 536 as against Rs 1 47 813 in the previous year and was composed mostly of revenue derived from Municipal Markets and Slaughterhouses and Municipal Farm

**25** *Grants and Contributions*—A sum of Rs 14 268 was received during the year as against Rs 23 478 in 1939 40

**26** *Miscellaneous*—The receipts under this head were Rs 803 as against Rs 2 831 in the previous year

**27** The collections of assessed taxes were in charge of the Revenue Officer under whose supervision the Octroi Department and Tolls also continued during the year as in previous years The Revenue Officer was also in direct charge of the collection of water charges and market revenue subject to the general supervision of the Honorary Vice President

## PART V—Expenditure

**28** *Public Safety and Lighting*—There were 2 883 gooseneck lights (including flood lights etc ) 1 040 ornamental lights and 106 dwarf lights in the city at the end of the year 23 additional lights were installed during the year at the instance of the municipality The charges paid to the Electrical Department during the year amounted to Rs 51 774 as against Rs 50 851 in the previous year

**29** *Fire Protection*—Three cases of fire were reported during the year and were extinguished with the help of the fire engine the cost incurred on this account being Rs 75

**30** *Destruction of Wild Animals Snakes Dogs etc*—The expenditure under this head was Rs 217 during the year as against 235 in the previous year

2 852 stray dogs were destroyed in the year under report as against 2 146 in the previous year

**31** *Public Works carried out by Civil Department*—During the year 1940 41 the expenditure under Public Works was only Rs 1 05 659 as against Rs 1 47 699 during the year 1939 40 The reduced expenditure was due to the fact that in the year 1939 40 under several works such as tarring metalling roads forming gravel roads and drains there was a heavy expenditure on account of the loan scheme In the year 1940 41 the expenditure under these sub heads was not so heavy

**32** The following are the main items of building works executed during the year under report

A *Buildings*—

1 Construction of a kitchen block in the Lus Terminus area at a cost of Rs 899
2 Construction of sweepers quarters at a cost of Rs 1 588
3 Improvements to market buildings at a cost of Rs 1 214

**33** B *Public Latrines and Urinals (under the Loan Scheme)* —No additional flush latrines and urinals were constructed during the year under report But a sum of Ps 649 was paid towards the cost of the two flush latrines in Adikarnatakapura and Madigageri in Mandi Mohalla constructed in the year 1939 40 A large programme for construction of Public Baths and Latrines is on hand and this is being financed from Normal Revenues and not from Loan Funds

In all congested areas where there were no regular latrines for house the municipality is providing Public Latrines Urinals and Baths so that poor class of people might make use of these freely For the year 1941 42 provision has been made for constructing latrines urinals and baths in several places noted below —

1 Urinal of 3 units behind Co operators Home
2 A public bath in Idgah
3 A public bath in Madigager
4 A flush latrine in Subbarayanakere
5 A public bath in Adikarnatakapura
6 A public bath in Kurmandi

The plan for the combined public latrine and bath provides also for separate places for bathing and washing for men and women respectively A provision of Rs 10 000 has been made in the Budget for this purpose

**34** C *Drainage and Sewage Works* —In addition to the construction of drains and road crossings at a cost of Rs 12 815 out of the normal funds of the Municipality a sum of Rs 1 468 was spent towards the execution of underground drainage works during the year out of Loan Funds

**35** D *Tarring of Roads* (original) —A sum of Rs 15 348 was spent during the year towards the tarring of roads (Original Works) out of the normal resources of the municipality exclusive of Repair Works under this head

**36** E *Repairs* —An outlay of Rs 78 264 was incurred during the year for the upkeep and maintenance of roads buildings drains etc as against Rs 84 737 in the previous year

Special attention was paid for the proper maintenance of roads and foot paths

*Field Metalling Roads and Improving Foot paths* —There are still a very large number of roads in the whole of the city which require metalling During the rainy season they get so badly slushy that people find it very difficult to walk on them It is therefore proposed to take about 30 miles of metalling during the year To metal these roads with burnt metal it would mean a very heavy investment and the traffic on these roads does not also require this Hence these interior roads are being field metalled the cost being thus reduced by over 60 per cent A provision of Rs 27 000 for this purpose has been made in the budget during the year 1941 42 and the work is on hand

In most of the roads foot paths were badly scoured and people found it very difficult to walk on them Gangs have been formed to regularly fill up these ruts and form the foot paths with gravel and sand The gangs work continuously on all the foot paths in rotation so that each portion is attended to at least once in two or three months

*Regarding Tar Roads* —Most of these roads are painted so as to provide a dustless surface It is now in several cases over 4 years since they were done and they require re surfacing This means a heavy cost and the question is therefore being examined Patch repairs are however being made tar gangs having been formed whose main work is to go on attending to these repairs regularly and systematically

**37** *Public Works carried out by the Public Works Department* —There were no instances of the kind during the year other than water supply distribution and improvement works

**38** *Clearing Storm Water Drain and Collection of Sand* —For the road works in the city we require more than 1 000 cubic yards of sand every year This sand was being collected from hallas outside the town and paid for at a very high rate On examining the main storm water drains within municipal limits it was found that there was a heavy deposit of sand which was preventing free flow of water and the sand collected here was of good quality Most of these are now being cleared and the good sand obtained is exposed and screened and utilised for petty works One of the important drains which has been treated in this manner is the storm water drain running in Peoples Park and Doddakere Tank Bed This drain is now functioning very well after removal of sand and silt The sand thus collected

costs less than Re 0 6 0 per cubic yard as against a rate of Rs 1 8 0 to Rs 2 4 0 per cubic yard of sand carted from outside

**39** *Water Supply to the City* —As in the previous years improvements to the water supply distributory system in the city were carried out during the year by laying mains and sub mains in some of the mohallas where there was absolute necessity

It is understood that the present pumping capacity of the Belagola Unit is not adequate and also that additional reservoirs and filters are neces ary As matters stand owing to the difficulty in pumpage and want of capacity in the storage reservoir considerable difficulty is felt at present for giving adequate water supply to several parts of the town during summer and unless improvements to these are affected the position will not improve The Water Supply Sub Committee that has been constituted to go into this and other matters is looking into this but perhaps on account of war conditions it may not be possible to remedy these defects in the immediate future however much one would like to do so

**40** *Conservancy* —The Health Department of the Municipality was under the direct control of the Health Officer as in previous years The public health and the conservancy arrangements were satisfactorily attended to under his super vision

## Public Health

**41** The pbublic health of the city was generally good Plague small pox and influenza appeared and prevailed for some time during the year Timely precautionary and preventive measures were taken to check the spread of the diseases

**42** Anti malarial operations and anti rat campaign were conducted during the year

**43** Licenses were granted to hotels coffee clubs bakeries etc in strict con formity with the sanitary rules The number of prosecutions launched for breach of rules is furnished in Appendix XVIII

**44** 381 houses were disinfected during the year

## Vital Statistics

**45** *Births* —5 499 births were registered during the year as against 5 195 in the previous year The ratio was 36 32 per mile of population

**46** *Deaths* —3 300 deaths were registered during the year as against 3 466 in the previous year bearing a ratio of 21 80 per mile of population It will thus be seen that the births were more and the deaths less than the previous year

**47** *Infantile Mortality* —732 infants under one year of age died during the year bearing a ratio of 133 11 per 1 000 births registered as compared to 663 in the year 1939 40

**48** *Plague* —All the houses in the city were fumed with Cyano gas and it is gratifying to note that there were no plague complaint There were however 7 imported cases with 4 deaths from this disease The number of attacks during the previous year was 44 and deaths 34

**49** *Cholera* —There was no case of cholera during the year

**50** *Influenza* —There were 37 fatal cases from this disease during the year as against 19 during the previous year

**51** *Small pox* —There were 9 attacks and 2 deaths in the year as against 338 attacks and 177 deaths in the previous year The 9 cases were imported ones

**52** A house to house survey was conducted with reference to the internal drainage the condition of the latrines existence of wells and condition of the premises of the houses and notices are being issued systematically to owners of buildings wherever defects have been observed during the survey to rectify them In are is where the underground sewer existed or was newly put up the construction of flush latrines were insisted on and it was seen that house sullage was led into the underground sewer In every case the above was not complied with even after giving sufficient time prosecutions were launched but wherever the party complied with our requisition the case was subsequently withdrawn The municipality has also arranged for washing these flush latrines twice a week

In Mysore City the removal of rubbish and night soil is done departmentally and is not given to a contractor this arrangement has been found to be extremely satis factory and is largely responsible for the clean bill of health in the town The

rubbish is all collected and is mainly utilised for making compost in the Sewage Farm Part of the rubbish is used for filling in big hallas and in these cases the rubbish is covered with fresh earth as far as possible

**53** *Weekly Gang Work in Mysore City*—The municipality has arranged weekly gang work in limited areas of the city so that intensive work may be carried out both by the Engineering and Health Departments

This gang work is arranged every Saturday afternoon when about 3 0 to 400 sweepers and all the Kalihath Gangs of the Engineering Department are deputed to work in this locality In addition all the lorries and carts also work to remove the rubbish and debris in the area and fill up the pits and swamps previously selected for the purpose During this work all the roads bye lanes and drains are given a good clean up and the roads repaired by cutting ridges and filling up ruts Required quantity of metal and gravel is carted beforehand and this is spread over all the roads Opportunity is taken at the same time to remove the rank vegetation and thorns in the area All the localities in the city are covered at least once in the course of every four months

The work has been found to be very useful and satisfactory and house owners also are co operating with the municipality in our effort

**54** *Vaccination*—Vaccination continued to be compulsory during the year under report A total of 10 699 vaccinations were performed in the city during the year as compared to 73 591 in the previous year Of these 5 869 were primary and 4 830 re vaccinations The number of successful cases among the primary vaccinations was 4 830 during the year The municipality maintained 4 vaccinators—2 males and 2 females In the absence of 2 female vaccinators male vaccinators were entertained temporarily In addition to the 4 permanent vaccinatois 4 Sub Registrars of Births and Deaths (trained in vaccination work) also attended to vaccination during the year

**55** *Food Inspection*—1 957 samples of all kinds were examined in the laboratory during the year as against 1 707 samples examined in the previous year Of these 293 samples of food stuffs were submitted for analysis under the Mysore Prevention of Adulteration Act as against 270 samples in the year 1939 40

**56** During the year 141 samples of milk 76 samples of ghee 50 samples of butter 24 samples of coffee powder and 2 samples of cream were examined and 42 samples of milk 35 samples of ghee 27 samples of butter and 8 samples of coffee powder were found to be adulterated 63 prosecutions were launched in respect of these adulterated samples and 59 cases ended in conviction the fines ranging from Re 1 to Rs 20 per case Two cases ended in acquittal by Court and two cases had to be withdrawn as the parties could not be traced Six cases were compounded for Rs 95 and 30 cases of adulteration had to be struck off the roll as in many cases the samples had the requisite labels denoting admixture and some cases could not be successfully instituted 17 case remained pending disposal at the end of the year

Hotels eating houses bakeries etc were inspected by the Health Officer and the Sanitary Staff and needful action was taken to remove the defects prosecutions being launched wherever necessary

**57** *Food*—It is a common experience of all that ghee butter and milk are to a great extent adulterated by the vendors In order to prevent this adulteration the municipality has been launching a number of cases under the Food Adulteration Act During the year under report 293 samples were analysed of which 185 were found to be genuine and the rest adulterated Convictions have been obtained in 59 cases the amount of fine aggregating to Rs 463 The rest of the cases were compounded Samples are collected periodically from hotel keepers shop keepers and other vendors and examined and in cases of un notified adulterations prosecutions launched These surprise inspections and taking samples during such inspections are having a good moral effect on the vendor as is seen from the fact that a large number of amples taken during surprise inspections are found to be genuine Facility has also been created by the Municipality for getting samples received from private bodies analysed

**58** *Anti Malaria Operations*—Mosquito control work such as treating the wells nalas pools pits drains etc where mosquitoes were found breeding with paris green and malariol was carried on in the city by the special staff entertained for the purpose

The area behind Saraswathipuram and Kukkarahalli lank was very marshy due to which there was severe malaria This was due to want of sub soil drainage

and the existence of innumerable pools all over the area During the year considerable work has been done in filling up the pools in excavating drainage channels in trimming up the edges of Saraswathipuram pond and in forming the entire area The people of Saraswathipuram feel that there is a considerable reduction in breeding of mosquitoes during this season Bad and swampy areas in Vóntikoppal also are being similarly dealt with

Large improvements have also been effected to the Subbarayanakere Tank and the feeder channel to Kukkarahalli Tank and also to the maidan and the channel going below Krishnarajavanam The storm water drains have been canalised mounds levelled and pits filled up

The swimming pond is also being re modelled with side walls and flooring so that it may be useful for the public by being free from weeds and slush with which it used to be full formerly It is hoped that with these improvements the swimming pond will be a very popular resort

The Municipality has undertaken anti malarial operations for the first time in 1930 to reduce the incidence of malaria in Mysore All pools puddles swamps wells and tanks are being sprayed with malarial or paris green The city is divided into convenient divisions and a gang of 18 people is deputed for treating these areas both morning and evening so that the whole area may conveniently be covered within a week One day in the week test checks are made by dipping in various places and also by catching adult mosquitoes in certain number of houses distributed all over the city Further a spleen survey is undertaken by the department every year It is gratifying to note that with these systematic efforts of the Health Department the incidence of malaria is steadily going down A graph of the incidence of malaria is enclosed In addition to the temporary measures permanent measures are also undertaken by closing pits and draining swampy areas and training of channels A striking example of this is near Saraswathipuram where the whole area was full of water pools stagnating for months together due to the deep pits formed by the stealthy removal of mud and manufacture of bricks wherein water collected after the rains All the pits have been filled up and drains cut to lead off the water with the result the whole area looks very clean level and dry A similar work is being undertaken below Kukkarahalli tank and in the Goblikere areas

**59** *Local Fund Dispensaries* —In addition to the 6 Local Fund Dispensaries that were existing one dispensary was newly sanctioned to Vanivilaspuram during the year under report The number of patients treated in these dispensaries was 3 12 892 as against 2 75 729 in the previous year

**60** *Midwives and Maternity* —There were 7 midwives including the one sanctioned to Vanivilaspuram Dispensary which was started in the year under report The total number of labour cases attended to by them during the year was 548 as agsinst 488 in the previous year

The number of births that takes place in a year in Mysore Municipality is 5 600 of which nearly 50 per cent are conducted in the two Maternity Hospitals—Chelu vamba Maternity Hospital and the Holdsworth Memorial Hospital Out of the rest nearly one third are attended to by either the Municipal Midwives or the Gunamba Trust Midwives There are 7 Municipal Midwives and 6 Trust Midwives and the whole of Mysore City is divided into 13 divisions and each put in charge of a Midwife

The two bodies—the Municipality and the Gunamba Maternity and Child welfare Trust—are working in close co ordination and the midwives are being persuaded to conduct more and more cases It is hoped in course of time that a large number of the cases not conducted in the hospitals will be attended to by qualified midwives only There is also a proposal to hold classes for the Dasi (unskilled nurses) and register their names and as they die out to replace them by skilled midwives The aim is that every woman who delivers should have skilled aid at the time of delivery thus reducing maternal mortality rate due to the peurpural sepsis and other causes dependent on child birth

**61** The Municipality is also subsidising to a large extent the activities of the Gunamba maternity and child welfare Trust As a matter of fact the Health Officer is one of the Joint Honorary Secretaries and is the Convenor of the Doctors Committee of the Gunamba Trust and thus supervises this very important branch of the maternity and child welfare work To a proposal of the Trust authorities to open a Creche for taking care of the children of women working in the factories the municipality promptly responded this year and in addition to the free gift of a build

ing costing about Rs 3 000 a recurring grant of Rs 60 per month for the maintenance of this creche has been sanctioned The creche was opened during the Dasara this year by Mr H B Gundappa Gowda Minister for Local Self Government and it is expected that it will prove so useful that similar creches will be started in other places

**62** *Indigenous Hospitals Vaidyasalas and Davakhanas*—The number of grant in aid indigenous and allopathic medical institutions was 14 during the year as against 13 in the previous year

The municipality is giving a grant to 13 of the Hakims and Vaidyas practising in Mysore City and these grant in aid institutions submit monthly reports of the number of cases treated for various diseases These institutions are being now inspected by the Health Officer In addition to his inspections it was felt that the inspections would be more effective if persons qualified in Ayurvedic and Unani systems should inspect these periodically and certify to their efficiency before the grant in aid bills are passed for payment With this in view periodical inspections of these institutions by the Principal of the Ayurvedic and Unani College the Superintendents of the Government Ayurvedic and Unani Sections have been arranged for The scheme has been approved in Government Order No 778 9—Muz 353 40 3 dated 4th November 1941 They have also been advised to give an impetus for the use by these Vaidyas and Hakims of Medicines prepared in the Government Ayurvedic and Unani Pharmacy

The Ayurvedic Dispensary in Krishnaraja Mohalla was as usual maintained by the municipality during the year under report the number of patients treated in that dispensary was 28 710 as against 22 215 in the previous year

The grants paid to the several Indigenous and Allopathic Medical Institutions during the year amounted to Rs 4 927 as against Rs 4 472 in the previous year

**63** *Public Gardens and Buildings*—The Peoples Park and the Cheluvamba Park and the Lingacharlu Memorial Hall continued to be under the control of the Municipality during the year The cost of maintenance of the public gardens was Rs 4 097 during the year as against Rs 4 221 in the previous year

**64** *Markets*—Attempts are being made to keep the market always clean and sanitary by frequent inspections by the superior officers The collections are quite satisfactory and are quite prompt month to month with the result that there are no arrears as far as the current demand goes The arrears relate to previous years which are being examined They are mostly to be written off A large sum of Rs 5 133 was spent on Devaraja Market during 1940 41 under both improvements and repairs The important improvements effected were the provision of good sun lighting arrangements in the fruit and vegetable stalls provision of litter bins to each pillar in the market provision of R C C cisterns and extending the platform of onion stalls Under repairs a large area of leaky portions of the terrace was repaired and also a number of shops and stalls in the Mutton Market were repaired and improved

**65** *Markets and Slaughterhouses*—There were 4 markets and 2 small vegetable markets at Erangere and Vanivilaspuram and 2 slaughterhouses The income from the markets and slaughterhouses amounted to Rs 1 00 439 as against Rs 88 021 in the previous year The system of collection of daily fees in Devaraja Market continued during the year

The markets and slaughterhouses were systematically inspected by the Sanitary Staff and the concerned officers during the year and all unwholesome articles of food fruits vegetables etc were got destroyed

69 554 animals were slaughtered during the year in the two municipal slaughterhouses as against 72 119 in the previous year The animals slaughtered were—

| | *1940–41* | *1939 40* |
|---|---|---|
| Sheep | 50 533 | 54 46 |
| Bullocks | 2 508 | 2 750 |
| Goats | 13 845 | 11 940 |
| Cows | 2 000 | 2 212 |
| Buffaloes | 668 | 750 |
| Total | 69 554 | 72 119 |

**66** *Avenues*—The avenues in the municipality were looked after by the staff specially employed for the purpose under the supervision of the Municipal Engineer

A number of ugly trees and plantings were removed and replaced by new ones A number of new avenue plants were also planted during the year and the vacancies

are being filled up The Register of Avenue Trees is being brought up to date and all avenue trees are being numbered

**67** *Municipal Farm* —The extent of the Municipal Farm was 175 acres of which 23 acre were taken by roads and buildings About 20 acres is set apart to the manufacture of compost and about 12 acres as a pasture for dry cattle to graze The rest of the land is under cultivation Grass such as Rhodes grass Napier grass and Guinea grass and vegetables of all types are the main sources of revenue in the farm The vegetables grown in the farm are very largely in demand and it has been found necessary to increase the acreage

The revenue from the farm was Rs 25 319 and expenditure was Rs 19 229 resulting in a net receipt of Rs 6 090

The main outfall of the sewerage system in Mysore is the Sewage Farm The sewage is treated in a septic tank and the effluent is utilised for irrigation The quantity of sewage received per day is two million gallons and the area under cultivation is inadequate to take in this large amount of sewage It has been found therefore expedient to extend the area under cultivation The municipality therefore acquired 47 acres of land to the east of the farm and has proposed to acquire some more land in order to treat the whole of the sewage The question of extending the septic tank is receiving the attention of the municipality The farm has been under continuous irrigation for the past 15 years and more without the soil becoming sewage sick This is due partly to the porosity of the soil and partly to the system of irrigation A bridge has been constructed across the central channel in order to facilitate the transport of produce from the eastern side to the western side of the farm A sum of Rs 10 000 has been allotted this year for improvements and this sum is proposed to be utilised for constructing ideal cattle sheds for improving the roads and installing a pump

The dry cattle shed—a scheme which is attracting the attention of the public is becoming increasingly popular Dry cattle are stalled here on payment of Rs 2 per head of cattle per month The cattle are looked after by the farm authorities and allowed to graze in the rich fields of municipal farm A revenue of Rs 230 per month or nearly Rs 2 700 per annum is being realised out of this the expenditure being only about Rs 32 per month or Rs 400 per annum The Veterinary Inspector attached to the farm gives any medical assistance necessary There is a proposal to improve the cattle shed and also to see how far it would be possible to start a Dairy Farm with the Municipal Sewage Farm as the nucleus

**68** *Compost* —The manufacture of compost out of street rubbish and night soil was continued during the year

A quantity of 2 000 tons of this manure was manufactured during the year as against 2 500 tons in the previous year This lower out put is due to the increased number of treatments given to the rubbish piles with a view to improve the quality of the compost

The revenue from the sale of compost during the year was Rs 2 477 as against 5 746 in the previous year The total sale of compost during the year amounted to only 1 273 tons

**69** *Municipal and Grant in Aid Schools* —The Municipal Council continued to be the Local Education Authority in respect of Primary Schools in Mysore City The control of these schools was handed over to Government on 1st July 1941 as per Government Order No E 4884–98/Edn 40–40–19 dated 24th June 1941 There were in all 61 such schools at the end of the year with combined strength of 7 432 against 7 379 in the previous year

**70** *Public Reading Rooms and Libraries* —The grants of Rs 200 to the Public Library Rs 100 to the Literary Union and Rs 150 to Anjuman e Ithade Islam Free Reading Room were made during the year

**71** *Building Licenses* —51 applications were pending at the beginning of the year and 2 543 were received during the year making a total of 2 594 to be dealt with License were granted in respect of 1 873 cases and license were refused in 645 cases the total number of applications disposed of being 2 518 during the year The number that remained undisposed of at the end of the year was 76

As it was felt that the Municipal Engineer on account of his multifarious duties could not give sufficient attention for this important branch of controlling the construction of buildings by proper scrutiny of building licenses the Municipal Council recommended the appointment of a separate officer of the grade of a

Sub Engineer as a Licensing Officer for the Municipality The proposals have been approved and an officer has since been posted for this purpose

**72** *Prosecutions*—The prosecutions instituted during the year chiefly related to the breach of octroi bye laws building bye laws sanitary rules rules under the Public Conveyance Act and Act for the Prevention of Food Adulteration

APPENDIX XVIII furnishes the results of prosecutions instituted during the year

**73** *Municipal Advocate*—Mr S Chinnaswami Setty B A L L B continued as Municipal Advocate till 28th May 1941 when he was succeeded by Mr M Shankariah B A , L L B

**74** *Audit of Accounts*—The system of pre audit was continued during the year of report

**75** *Establishment*—The following establishment were sanctioned during the year —

(*a*) Continuance of the services of Mr S R Ramaswami Sastri of the Agricultural Department for work in the compost section for another year from 1 th May 1940 (*G O \ 1 F 6 98-9—Agr 253-39-2 dated 10th June 1940*)

(*b*) Extension of the term of the temporary watchman of the Town Hall for a period of one year from 1st July 1940 (*G O \o L 1043 -6—Ml 27-9-78 dated 24th June 1940*)

(*c*) Continuance during 1940 41 of the establishment entertained for the abatement of the cattle nuisance in the city (*G O \o L 10512-3—Ml 27-39-84 dated 2 th June 1940*)

(*d*) Continuance of the following temporary establishment during 1940-41 —

| | | | |
|---|---|---|---|
| 1 | Compost | 4 | Work hop |
| 2 | Cattle sh l | 5 | Additional Pipe Line Establishment |
| 3 | Anti Malaria | 6 | Establishment for Labour on Municipal Farm |

(*G O \o I 10 10-11—Ml 27-39-6 dated 2 th June 1940*)

(*e*) Continuance of the temporary establishment relating to the collection of tax during the year 1940-41 (*G O \o L 10580-1—Ml 67 36 80 dated 26th June 1940*)

(*f*) Appointment of the City Magistrate as Revising Authority for disposal of objections in respect of the revised valuation and assessment on buildings and land in the city for a period of 6½ months (*G O \o L 30 3—Ml 27-39-86 dated 3rd July 1940 I 337 -8—Ml 31-40 8 dated 5th November 1940 I 5393 6—Ml 31 60 1 dated 16th January 1941*)

(*g*) Continuance of the temporary establishment consisting of 1 Revenue I pector and 3 clerks till the end of November (*G O \o D 2416-7—Ml 31 40 4 dated 24th Septe ber 1940*)

(*h*) Continuance of the services of the temporary accountant of the Engineering section till the end of June 1941 (*G O \o L 33 9-10—Ml 31 41-40 dated th November 1940*)

(*i*) Continuance of the term of enquiry clerk till the end of March 1941 (*G O \o I 5334-39—Ml 31-40-2 dated 2 th Febr a y 1941*)

(*j*) Extension of the term of Mr S Abdul C r as Revenue Officer for a further period of two years from 29th November 1940 (*C O \o I 4448—Ml 31 40 dated 9th Dece be 1940*

(*k*) Entertainment of an establishment consisting of a compounder a midwife and a servant (on a reduced scale) for Vannarapuram Dispensary (*G O \o G 3437-40—Med 340-39-6 dated 24th October 1940*)

(*l*) Continuance of the temporary clerk in the Water Revenue Section for two years from 1 t February 1941 (*G O \o I 82 5-8 Ml 31-40-26 dated 16th May 1941*)

( ) Appointment of a sweeper on Rs 10 to attend to the Krishnamurthipuram Market (*C O \o L 7835-36—Ml 31 40-32 dated 3 l May 1941*)

(*s*) *G O N I 5033-34—Ml 31-40-17 dated 4th January 1941* sanctioning an allowance of Rs 2 to one of the peons in the Head Office for attending to the circulation of papers among the members of the council from 1st December 1940

(*o*) *G O \o L 3181 9—Ml 31 40-19 dated 11 th January 1941* sanctioning an allowance of Rs 3 per mensem to the peon who attends to the stencilling work

**76** *Propaganda—General*—With a view to educate the public and keep them informed about the administrative affairs of the municipality in all its branches a series of lectures were arranged to be delivered through Akash Vani on matters relating to municipal administration It has also been arranged to get these lectures printed and published

Arrangements are also being made for giving magic lantern lectures on public health and sanitation epidemic diseases and their prevention etc in every mohalla of the city and in all the schools The housing programme for the scavengers and sweepers is being rapidly pursued A proposal is under consideration to sell the houses to such of the sweepers as are prepared to purchase them and utilise the proceeds also for building more houses Two units consisting of 8 houses were completed during the year under report A sum of Rs 10 000 has been provided in the budget for 1941-42 for the building of sweepers houses Special attention is also being paid to keep the areas round the sweepers quarters clean and tidy Children s

play apparatus is being provided in these places It is also under consideration to institute a system of prizes for the best maintained sweepers quarters

A scheme has also been submitted to Government for the institution of a system of provident fund for sweepers At present these sweepers have neither provident fund nor insurance benefits and it was felt that it was desirable to make their services more attractive by giving them continuity of tenure subject to good conduct by the introduction of a Provident Fund Scheme Incidentally the question of grant of gratuity to such persons who retire and who do not derive the full benefits of the Provident Fund Scheme has also been recommended

The question of starting a co-operative society for the benefit of municipal sweepers is also engaging the earnest attention of the municipality

The Municipal Council has also sanctioned a scheme for an itinerant dispensary for the benefit of this class of persons and generally to the public The details are being worked out in consultation with the Senior Surgeon

The appointment of a Welfare Officer to look after the welfare of Harijans is also under active consideration In the meanwhile steps are being taken to give necessary facilities for their education food and sanitation of the areas in which these classes of people live

**77** *Conclusion* — The working of the Department was on the whole satisfactory and I wish to take this opportunity to thank the Municipal Engineer the Health Officer and the Revenue Officer and all the subordinates for their very close co operation with me in the conduct of the administration The relations between the Municipal Executive and the Councillors on the whole continued to be satisfactory

The acknowledgment of the executive are due to the two Vice Presidents (Mr F C Devaraja Urs and Mr P Mariappa) and to the Municipal Councillors for their kind continued interest co operation and valuable suggestions in the working of the Municipality

P OCEEDINGS OF THE GOVT OF HIS HIGHNESS THE MAHARAJA O MYSORE

---

Read -

Letter No G T 1888 dated 17th February 1942 from the President, City Municipal Council, Mysore forwarding the report on the administration of the Municipality for the year 1940-41

---

ORDER NO L 799-807

Dated, Bangalore, the 22-7-42

RECORDED

22-7-42
Sd/- By Mr G Rao

2 Boundaries The municipal boundaries were extended during the year, as from 1st February 1941 and the total municipal area embraced 12 75 square miles which meant an accession of 3.25 square miles to the previous extent

3 Constitution The municipal council was reconstituted as from 3rd January 1941 and the strength thereof rose from 30 to ~~31 after the reconstitution~~ Of this number, 24 members were elected by the rate-payers and 7 including the President were nominated by Government. Mr B S Raghavendra Rao, M A (Hons) succeeded Mr M Navaneetham Naidu, B A , B L , as President from 3rd January 1941 and Mr T C Devaraj Urs was the Vice President from 1st July 1940 to 3rd January 1941 Mr T Mariappa B A , LL B , was elected Vice President of the reconstituted Council from 14th February 1941 Both Messrs Raghavendra Rao and Mariappa continued to hold their respective offices during the year under report

4 Meetings The Municipal Council held twelve ordinary , one extraordinary and eleven special general meetings during the year The average attendance at each meeting was 23 50 ( 1 official and 22 5 non-official)

5 Committees of the Council There were six working Committees constituted during the year and they met as usual and transacted the business referred/them by the Council

6 Rules & Bye-laws

Among the amendments sanctioned to the existing bye-laws or the new bye-laws introduced during the year, the following may be mentioned -

a) Grant of exemption from payment of Octroi duty for a period of 3 years from 1st Febry 1941 in respect of beedies manufactured within the State and imported into the limits of several Municipalities

b) Rules and Bye-laws for the registration of, and levy of tax on dogs for preventing the spread of infectious diseases in the Mysore City

7 Demand, Collection and Balance

The arrears at the beginning of the year stood at Rs 1,99,101 (2,09,658) The demand for the year was Rs 7 19 063 (5,99,854) The extension of the Municipal area a general revision of the assessed taxes brought into effect during the year, inclusion of certain items which were omitted in the demand during the previous years account generally for the increase in the demand for the year ~~of~~ under report Of the total demand, including the arrears, of Rs 9 18,164, a sum of Rs 7,90 037 (6,25 367) inclusive of remissions to the extent of Rs 22,346 was collected, leaving a balance of Rs 1,28,127 (1,84,145) The percentage of total collection to the total demand was 86 00 as against 79 22 in the previous year Though there is noticeable improvement in collection,

the arrears are still heavy and point to the need for sustained efforts, lest the dues should become irrecoverable by lapse of time

8 Incid-nce of taxation

The incidence of taxation per head of population based on the Census of 1941 work up to Rs 4- 6- 6 during the year

9 Finance

The year opened with a cash balance of Rs 66,604/- The receipts and expenditure amounted to Rs 8,79,721/- and Rs 9,00,178/- respectively leaving a closing balance of Rs 46,147/- excluding a sum of Rs 50,000/- invested during the year in the Government Savings Bank

10 Public Works

The expenditure under Public Works was Rs 1,05 659 (Rs 1,47,699) —Among the usual ones during the year important building works may be mentioned -

a) Kitchen block in the Bus Terminus area

b) Sweepers' Quarters

c) Improvements to Market Buildings

A programme has been got up for the construction of Public Baths and Latrines to be financed from the normal revenues during 194

42 Drains and road crossings and tarring o roads

urder orıginal works were executed, out of tne normal resources of the Municipality at a cost of ₨ 12,815 and ₨ 10,348 respectively, besides underground drainage works for ₨ 1468/- out of the loan funds The upkeep & management of roads, buildings, drains etc , continued to receive ~~the~~ due ~~measure of~~ attention and ar outlay of Rs 78,264 (₨ 84,737) was ıncurred on this account

11. Water Supply The control of water supply vested as usual ın the Bureau of Sanitary Engineering. The question of improving the present pumping capacity of the Belagola Unit ard ~~desk~~ of installing additional reservoirs and filters so as to provide adequate water supply to the City ıs under active consideration Some ımprovements were effected by laying mains and sub-mains in ~~some~~ certain part of the City

12. Public Health The Public Health of the City was generally good, though plague, small pox ard ınfluenza appeared ~~and prevailed~~ for some time Prventive measures against these were adopted ın time Anti-malaria measures and cyrogas fumigation of houses were conducted Sanitary rules were enforced ~~ın respect of~~ hotels bakeries etc , and 63 prosecutions were launched under tne Food Adulteration Act and 59 of them ended ın conviction Adulteration, rather common with ghee butter and milk was effectively controlled by means of surprise ınspections and analysis of samples ~~facility has also been created by the Municipality for getting analysed samples received from private bodies~~ One Dispensary was newly sanctioned ~~to~~ for the extension Vanivilasapuram during the year

13 Welfare work The work of Child Welfare however received good attention and a creche was also opened recently for taking care of the children of women working in Factories

14 Municipal Farm The farm continued to be under the control of the Health Officer of the Municipality The total extent of the farm is 175 acres and the income is on the increase A sum of Rs 10 000/- has been set apart to effect further improvements to the farm

The revenue from the farm was Rs 25,319 and the expenditure was 19,229 resulting in a net receipt of Rs 6,090

15 Compost The manufacture of compost out of street rubbish and night soil was continued during the year Two thousand tons of manure were manufactured as against 2500 in the previous year A sum of Rs 2477/- was realized by the sale of compost during the year as against Rs 5 741/- in the previous year

16 Public Instruction The Municipal Council continued to be the Local Education Authority in respect of Primary schools in the Mysore City The number of schools under its management was 61 The combined strength of these schools was 7432 as against 7379 in the previous year

17 The Municipal Administration during the year was satisfactory

The resolution of the city municipal council suggesting the preparation of the Administration Report on the revised lines indicated by them is under the separate consideration of Govt and orders thereon will be issued in due course W.T.

a) Grar

a) Grant of exemption from payment of Octroi duty for a period of 3 years from 1st February 1941 in respect of beedies manufactured within the State and imported into the limits of several Municipalities

b) Rules and Bye-laws for the registration of, and levy of tax on dogs for preventing the spread of infectious diseases in the Mysore City

7 Demand, Collection and Balance The arrears at the beginning of the year stood at Rs 1,99,101 (2,09,658) The demand for the year was Rs 7,19,063 (5,99,854) The extension of the Municipal area, a general revision of the assessed taxes brought into effect during the year, and inclusion of certain items which were omitted in the demand during the previous years account generally for the increase in the demand for the year under report Of the total demand, including the arrears, of Rs 9,18,164 a sum of Rs 7,90,037 (6,25,367) inclusive of remissions to the extent of Rs 22,346 was collected, leaving a balance of Rs 1,28,127 (1,84,145) The percentage of total collection to the total demand was 85 00 as against 79 22 in the previous year Though there is noticeable improvement in collection, the arrears are still heavy and point to the need for sustained efforts, lest the dues should become irrecoverable by lapse of time

8 Incidence of taxation The incidence of taxation per head of population based on the Census of 1941 works up to Rs 4-6-6 during the year

9 Finance The year opened with a cash balance of Rs 66,604/- The receipts and expenditure amounted to Rs 8,79,721/- and Rs 9,00,178/- respectively, leaving a closing balance of Rs 46,147/- excluding a sum of Rs 50,000/- invested during the year in the Government Savings Bank

10 Public Works The expenditure under Public Works was Rs 1,05,659 (Rs 1,47,699) Among the important building works undertaken during the year may be mentioned -

a) Kitchen

a) Kitchen block in the Bus Terminus area.

b) Sweepers' Quarters.

c) Improvements to Market Buildings. A programme has been got up for the construction of Public Baths and kxx Latrines to be financed from the normal revenues during 1941-42. Drains and road crossings and tarring of roads under original works were executed, out of the normal resources of the Municipality at a cost of Rs 12,815 and Rs.15,348 respectively, besides underground drainage works for Rs 1468/ out of he loan funds. The upkeep and management of roads, buildings, drains etc , continued to receive due attention and an outlay of Rs.78,264 (Rs.84,737) was incurred on this account.

11. Water Supply The control of water supply vested as usual in the Bureau of Sanitary Engineering The question of improving the present pumping capacity of the Belagola Unit and of installing additional reservoirs and filters so as to provide adequate water supply to the City is under active consideration. Some improvements were effected by laying mains and sub-mains in certain parts of the City.

12 Public Health The public health of the City was generally good, though plague, small pox and influenza appeared for some time. Preventive measures against these were adopted in time. Anti-malaria measures and cynogas fumigation of houses were conducted. Sanitary rules were enforced in respect of hotels, bakeries etc , and 63 prosecutions were launched under the Food Adulteration Act and 59 of them ended in conviction Adulteration, mather common with ghee, butter and milk was effectively controlled by means of surprise inspections and analysis of samples One Dispensary was newly sanctioned for the Vanivilaspuram extension during the year.

13 Welfare work The work of Child Welfare however received good attention and a creche was also opened recently for taking care of the children of women working in Factories

14 Municipal Farm The Farm continued to be under the control of the Health Officer of the Municipality. The total extent of the farm is 175 acres and the income is on the increase. A sum of Rs.10,000/- has been set apart to effect further improvements to the

the farm. The revenue from the Farm was Rs 25,319 and the expenditure was 19,229 resulting in a net receipt of Rs 6,090/-.

15. Compost The manufacture of compost out of street rubbish and night soil was continued during the year Two thousand tons of manure were manufactured as against 2500 in the previous year A sum of Rs 2477/- was realized by the sale of compost during the year as against Rs 5,741/- in the previous year

16 Public Instruction. The Municipal Council continued to be the Local Education Authority in respect of Primary schools in the City The number of schools under its management was 61 The combined strength of these schools was 7422 as against 7379 in the previous year.

17 The Municipal Administration of the City during the year was satisfactory The resolution of the City Municipal Council suggesting the preparation of the Administration Report on the revised lines indicated by them is under the separate consideration of Government and orders thereon will be issued in due course

Reviews the ——

READ—

Letter No G T 1888 dated 14th February 1942 from the President City Municipal Council Mysore forwarding the report on the administration of the Municipality for the year 1940 41

ORDER No L 799 807—Ml 116 41 4 DATED BANGALORE THE 22ND JULY 1942

Recorded

2 *Boundaries* —The Municipal boundaries were extended during the year as from 1st February 1941 and the total Municipal area embraced 12 75 square miles which meant an accession of 3 25 square miles to the previous extent

3 *Constitution* —The Municipal Council was reconstituted as from 3rd January 1941 and with a strength of 31 member against 30 Of this number 24 Members were elected by the rate payers and 7 including the President were nominated by Government Mr B S Raghavendra Rao M A (Hons) succeeded Mr M Navaneetham Naidu B A B L as President from 3rd January 1941 and Mr F C Devaraj Urs was the Vice President from 1st July 1940 to 3rd January 1941 Mr T Mariappa B A L L B was elected Vice President of the reconstituted Council from 14th February 1941 Both Messrs Raghavendra Rao and Mariappa continued to hold their respective offices during the year under report

4 *Meetings* — The Municipal Council held twelve ordinary one extraordinary and eleven special general meetings during the year The average attendance at each meeting was 23 50 (1 official and 22 5 non official)

5 *Committees of the Council* —There were six Working Committees constituted during the year and they met as usual and transacted the business referred to them by the Council

6 *Rules and Bye laws* —Among the amendments sanctioned to the existing bye laws or the new bye laws introduced during the year the following may be mentioned —

(*a*) Grant of exemption from payment of Octroi Duty for a period of three years from 1st February 1941 in respect of beedies manufactured within the State and imported into the limits of several Municipalities

(*b*) Rules and bye laws for the registration of and levy of tax on dogs for preventing the spread of infectious diseases in the Mysore City

7 *Demand Collection and Balance* —The arrear at the beginning of the year stood at Rs 1 99 101 (Rs 2 09 658) The demand for the year was Rs 7 19 063 (Rs 5 99 854) The extension of the Municipal area a general revision of the assessed taxes brought into effect during the year and inclusion of certain items which were omitted in the demand during the previous years account generally for the increase in the demand for the year under report Of the total demand including the arrears of Rs 9 18 164 a sum of Rs 7 90 037 (Rs 6 2 367) inclusive of remissions to the extent of Rs 2 346 was collected leaving a balance of Rs 1 28 127 (Rs 1 84 145) The percentage of total collection to the total demand was 86 00 as against 79 22 in the previous year Though there is noticeable improvement in collection the arrears are still heavy and point to the need for sustained efforts lest the dues should become irrecoverable by lapse of time

8 *Incidence of Taxation* —The incidence of taxation per head of population based on the Census of 1941 works up to Rs 4 6 6 during the year

9 *Finance*—The year opened with a cash balance of Rs 66 604 The receipts and expenditure amounted to Rs 8 79 721 and Rs 9 00 178 respectively leaving a closing balance of Rs 46 147 excluding a sum of Rs 50 000 invested during the year in the Government Savings Bank

10 *Public Works*—The expenditure under public works was Rs 1 05 659 (Rs 1 47 699) Among the important building work undertaken during the year may be mentioned—

(*a*) Kitchen block in the bus terminus area
(*b*) Sweepers quarters
(*c*) Improvements to market buildings

A programme has been got up for the construction of public baths and latrines to be financed from the normal revenues during 1941 42 Drains and road crossings and tarring of roads under original works were executed out of the normal resource of the Municipality at a cost of Rs 12 815 and R 15 348 respectively besides underground drainage works for Rs 1 468 out of the loan funds The upkeep and management of roads buildings drains etc continued to receive due attention and an outlay of Rs 78 264 Rs 84 737) was incurred on this account

11 *Water Supply*—The control of water supply vested as usual in the Bureau of Sanitary Engineering The question of improving the present pumping capacity of the Belagola Unit and of installing additional reservoirs and filter so as to provide adequate water supply to the City is under active consideration Some improvements were effected by laying mains and sub mains in certain parts of the City

12 *Public Health*—The public health of the City was generally good though plague small pox and influenza appeared for some time Preventive measure against these were adopted in time Anti malaria measures and cyanogas fumigation of houses were conducted Sanitary rules were enforced in respect of hotels bakeries etc and 63 prosecutions were launched under the Food Adulteration Act and 59 of them ended in conviction Adulteration rather common with ghee butter and milk was effectively controlled by means of surprise inspections and analysis of samples One dispensary was newly sanctioned for the Vanivilasapuram extension during the year

13 *Welfare Work*—The work of child welfare however received good attention and a creche was also opened recently for taking care of the children of women working in factories

14 *Municipal Farm*—The farm continued to be under the control of the Health Officer of the Municipality The total extent of the farm is 175 acres and the income is on the increase A sum of Rs 10 000 has been set apart to effect further improvements to the farm The revenue from the farm was Rs 25 319 and the expenditure was Rs 19 229 resulting in a net receipt of Rs 6 090

15 *Compost*—The manufacture of compost out of street rubbish and night soil was continued during the year Two thousand tons of manure were manufactured as against 2 500 in the previous year A sum of Rs 2 477 was realised by the sale of compost during the year as against Rs 3 741 in the previous year

16 *Public Instruction*—The Municipal Council continued to be the Local Education Authority in respect of primary schools in the City The number of schools under its management was 61 The combined strength of these schools was 7 432 as against 7 379 in the previous year

17 The Municipal administration of the City during the year was satisfactory The resolution of the City Municipal Council suggesting the preparation of the Administration Report on the revised lines indicated by them is under the separate consideration of Government and orders thereon will be issued in due course
